CRIME IS RAMPANT; GOTHAM IN PANIC

More Assaults are Committed on Girls and Women and No Progress is Made Abating the Evil.

LITTLE GIRL ATTACKED IN THE STREETS

New York, Aug. 6.—An attempt to assault a lone woman early today on a west side street adds another case to the already long list of attacks made on women and children in the streets of New York. Despite the vigilance of the police, who have been doing double duty to prevent a further spread of the crime wave, the attack would have been successful had it not been for the desperate struggle of Adelaide Wildrer, a trained nurse, who fought her assailant with a hat pin and finally routed him. Miss Wildrer's screams brought the police, who pursued the man to Central park, where he was brought to bay with a fusilade of bullets from the revolvers of the officers. The man said he was Pietro Daurio, an Italian peddler.

Woman Used Her Hatpin.

Miss Wildrer was walking home early today after attending a patient. Near Manhattan avenue and One Hundred and Sixth street an Italian accosted her. When she repulsed him the Italian knocked her down with his fist and clutching her throat with his hand dragged her to the stoop of an apartment house. Miss Wildrer managed to withdraw a hatpin from her hat and jabbed her assailant and caused him to loose his hold on her throat. Miss Wildrer screamed for help and the Italian fled. Policemen heard her cries and gave chase. The Italian fled to Central park and the policemen fired a volley of shots after the fleeing man, who leaped the park wall and hid under a clump of bushes. He was dragged out by the police and identified by Miss Wildrer, who, despite the fact that she had been half strangled and badly beaten about the face, had given chase to her assailant with the police. Daurio declared that he was innocent.

Attempt to Assault Girl.

The police are searching for an unknown man who attempted to assault a thirteen-year-old girl named Sade Moman in a hallway of an office building today. The assaulter escaped through Grand street. The girl's assailant made his attempt while the girl was standing on the sidewalk when the man seized her and forced her in a hallway. Her screams frightened the man and he ran. Several persons pursued the man who escaped. The girl was not harmed.

TRYING TO AVERT A GRAVE CLASH IN ALABAMA

Governor and Officials of Railroads Try at Conference to Agree.

Montgomery, Ala., Aug. 6.—Vice President Russell, of the Mobile & Ohio railroad, representing President Finley of the Southern, had an interview with Governor Comer this morning with regard to the Southern railway revocation of license case, which will be followed by another later. The governor would not say what had been done, or whether or not an agreement had been discussed. He said that everything was very cordial and that the matter would be gone into further. It is understood here that the conference of today was arranged by Senator-Elect Joseph F. Johnson and that he is helping in every way possible to bring about a settlement of the situation.

KNIGHTS OF COLUMBUS IN SESSION AT NORFOLK

Mgr. Falconio Has Charge of Opening Mass—Foresters in Session.

Norfolk, Va., Aug. 6.—The twenty-fifth national convention of the Knights of Columbus of America began here today, being opened with a grand pontifical high mass at St. Mary's Cathoue church, presided over by Monsignor Falconio, papal delegate. The celebrant was Bishop Keiley, of Savannah, Ga., and the sermon was by Bishop Donohue, of Wheeling, W. Va.

John G. Ewing, nephew of the late James G. Blaine, and Edward L. Hearn are aspirants for supreme knight.

FORESTERS IN CONVENTION.

St. Paul, Minn., Aug. 6.—More than two hundred delegates were present at the opening session of the eighteenth annual convention of the Catholic International Order of Foresters which began here today.

Much of the time of the meetings will be devoted to a dicussion of the advisability of raising the insurance rates. A committee appointed at the last meeting to investigate the matter will report tomorrow.

It seems to be the concensus of opinion that a recommendation will be made to raise the rates to conform with the fraternity tables of other orders as the Foresters' rate is 25 per cent lower than that of other fraternal orders.

The convention will remain in session until Thursday night.

KILLS WIFE FOR A BURGLAR.

Atlanta, Ga., Aug. 6.—H. B. Krumholz, an Austrian, early today shot and killed his wife, whom he took for a burglar. The couple was awakened shortly after retiring by an unusual noise. Being awakened the second time and hearing a noise in the room Krumholz fired. On securing a light he found that he had killed his wife, who had left the bed and was in another part of the room.

HALF A DOZEN DEAD IN RAILROAD WRECK

Passenger Train on Pennsylvania Sideswiped at Ford City, Pa.

Pittsburg, Pa., Aug. 6.—The Titusville express, southbound, on the Buffalo and Allegheny division of the Pennsylvania railroad, was wrecked near Kelly station today by being sideswiped by a freight car that had broken away from a northbound freight train.

The engine was derailed and two baggage cars, a smoker and passenger car wrecked. At least six persons are dead and about eighteen injured. Among the identified dead are:

MRS. ALONZO HUFF, Johnstown, Pa.

Son of Mrs. Huff.

M. B. IRWIN, engineer of the passenger train, residing at Oakmont, Pa. Body was cut in two and was found under the tender.

——— CHRITZLORE, Titusville, Pa.

——— HAFFEY, Kittanning, Pa.

Unidentified man.

Among the injured are:

Three daughters of Mrs. A. Huff, Johnstown, Pa.

John Gisslar, Emlenton, Pa.

Samuel Bing, Pittsburg.

Robert Michelton, Emlenton, Pa.

The train on leaving Kittanning, was behind time and it is said that it was running at a high rate of speed for the purpose of making up lost time. The accident occurred at a sharp curve of the road, which prevented the engineer from seeing any considerable distance ahead of him.

In some manner a big freight car that had formed part of a freight train north bound, had broken away from the train and had landed some distance from the north bound track and projecting over the south bound track. The express, as it rounded the curve, was side-swiped by this car, which derailed the engine and wrecked the four cars. The train was unusually well filled, as it carried a delegation from the First M. E. church ,Kittanning, on a visit of inspection to a neighboring church. Another delegation was comprised of the Armstrong county committee, and on the train among others were:

D. B. Heiner, collector of internal revenue, Pittsburg; State Senator George W. McNees, Kittanning; Mrs. Henry Chalfant, wife of Rev. Harry Chalfant, pastor of the First M. E. church, Kittanning and her young daughter. These were slightly injured, but not enough to require medical attention. Nearly all the passengers of the train suffered from shock.

One of the most pathetic features of the werck was the tragedy in the Huff family. The father, Alonzo Huff, at the time the accident happened was walking up and down the platform at Kiskiminetas Junction, where he had been on business and where he had arranged to board the train and join his wife and family. As a result of the wreck, however, his wife is dead, his son is dead and his three daughters are among the seriously injured. When word of the tragedy reached Huff he collapsed.

POSTMASTER FOR ARCOLA.

Washington, August 6.—Levi K. Todd was today appointed postmaster at Arcola, Allen county, Indiana

REV. W. J. QUINLAN IS DEAD AT ALTON ILLINOIS

Well Known Priest Was Former Assistant at Cathedral.

Rt. Rev. H. J. Alerding, bishop of Fort Wayne, has been notified of the death of Rev. Father William J. Quinlan, once assistant pastor of the Cathedral and well known in Fort Wayne, which occurred Monday afternoon at the home of his sister in Alton, Ill. Rev. Father Quinlan was pastor of the Catholic church at Crawfordsville, and his death was quite sudden, believed to have been due to the effects of a surgical operation to which he submitted about a year ago.

Rev. Father Quinlan was 48 years of age. He was born in Syracuse, N. Y., April 16, 1864, but the family came westward while the son was yet a mere boy, and he was educated at the Valparaiso normal school, St. Lawrence college at Calvary, Wis., and at St. Francis seminary at Milwaukee.

He was ordained to the priesthood by Rt. Rev. Bishop Dwenger at the Cathedral in Fort Wayne, was for a time pastor at Arcola and Pierceton, and later was appointed assistant pastor at the Cathedral. Here he officiated as secretary and chancellor pro tem. to Bishop Dwenger, and also attended the pastorate at Besancon. In January, 1864, Father Quinlan was appointed pastor at Marion, where he remained until April, 1906, when he was transferred to Crawfordsville, succeeding Rev. John Dempsey, deceased, where he was pastor at the time of his death.

It is understood here that the funeral services will be held at Valparaiso, Rev. Father Quinlan's former home.

SWIMMER ALMOST GETS OVER CHANNEL AS TIDE TURNS

Jabez Wolffe, Beaten When Within Three-Fourths of a Mile of France.

Dover, England, Aug. 6.—Jabez Wolffe, the amateur swimmer, in a fifth attempt to swim the English channel, today had accomplished a record swim from the south foreland, getting within three-quarters of a mile of Cape Blanc, France, in the speedy time of fifteen and one-half hours, when the turn of the tide carried him away from land and necessitated the relinquishment of his attempt.

NOTED POLITICIAN RETIRES.

Stamford, Conn., Aug. 6.—Samuel Fessenden, for more than thirty years a controlling factor in Connecticut politics, has announced his retirement from active political life. The strain of political campaigning, he says, he finds too strenuous for his health.

Fessenden came into national prominence in 1884 when he ran the Blaine campaign.

NO LIGHT ON SECRET OF DOUBLE CRIME AT DAYTON

Abe Cohan Dies of His Wound; Proof Had That Girl Was Assaulted.

Dayton, O., Aug. 6.—With Abe Cohan dead, the Sunday night crime mystery becomes a double murder, intensified in horror by the assault alleged to have been committed upon Anna Markowitz before she was strangled to death.

Cohan died today at the hospital, after an ineffectual attempt had been made to secure from him a coherent statement of the crime and an identification of the two Markowitz brothers. Owing to his delirious condition, the information he gave as to the tragedy is considered of little value. His father and brother were with him from Indianapolis an hour before death came but could obtain no rational answers to questions regarding the fatal events.

POLICE WORK IN VAIN.

Dayton, Ohio, Aug. 6.—A score of police officials, deputy sheriffs and detectives were today seeking desperately for the man who murdered Anna Markowitz Sunday evening, after having shot and fatally wounded her escort, Abe Gordon or Cohan. Clews so far have proved without result and today there seemed scant hope of ever solving the mysterious crime. The two brothers of the dead girl, who admitted disliking Cohan, and following the couple for a time Sunday evening, were taken to the hospital before Cohan died, but the wounded man could not identify them. They stoutly maintain their innocence of the crime and the officials generally accept their story since the autopsy on the body of the girl last night.

Girl Was Assaulted.

It was conclusively shown by the autopsy that in the murder of Anna Markowitz a double crime was committed, the slayer assaulting and then killing her by strangulation. A colored woman who lives near the scene of the murder, is quoted as declaring she heard a woman screaming in the woods at about the time the crime was committed, "Harry, oh Harry."

Harry Markowitz still maintains that his sister, Bertha, can clear up the mystery if she desires. The girl, however, continues reticent to the point of sullenness. Both she and her brothers are still in jail on suspicion.

Gordon or Cohan, as the wounded man was known, died today at the hospital. Owing to his delirious condition, the information he gave concerning the tragedy is considered by the authorities to be of little value.

EXPRESS COMPANY GETS READY TO MAKE A LEGAL FIGHT

National Files Demurrers in Eleven Cases—News of the Courts.

The National Express company, through Baker & Daniels, of Indianapolis, and Judge Walter Olds, of this city, filed in the superior court today demurrers to the complaints lodged against it for failure to deliver packages free of charge in the city limits and beyond the limits fixed by the company without extra charge.

Demurrers were filed in the regular legal form setting up the fact that the various paragraphs of the eleven complaints filed by W. & E. Leonard and Daniel B. Ninde do not set up facts sufficient to maintain an action at law. Under the usual procedure these demurrers will be argued and a decision obtained before the cases come up for final trial on their merits. It is likely, however, that the same objections will be raised in each case and that one will be selected for a higher court ruling.

Sues for Commission.

Charles Chenot filed in the superior court this morning an action against Louis P. Scherer demanding $250 for an alleged breach of contract. The complaint sets out that Chenot sold Scherer's bakery for $5,000 and that he was to receive a commission of $200 for the deal.

Ruch Made His Will.

The will of Samuel Ruch, the night watchman who committed suicide a few weeks ago, has been filed in the circuit court for probate. Under its provisions the widow, Clara I. Ruch, is the sole beneficiary. The will was drawn May 27, 1891, and a codicil dated April 6, 1899, names Mrs. Ruch as executrix.

BOARD TALKS OVER SITUATION.

Question of Using Telephone Poles is Being Considered.

Charles F. McBride and G. N. Bergrens, representing the McBride Construction company, George T. Fox, assistant secretary of the Home Telephone company and the members of the board of public works held an informal session this morning at which the question of using the telephone poles for the construction of the distributing system of the municipal lighting plant, was discussed, and it is likely that no trouble will be experienced in arranging matters.

The situation was greatly changed by the substitution of the magnotite lamps which do not require an alternating current and the telephone system will not be greatly troubled by the presence of the wires. The discussion was for the purpose of arriving at the best method of using the poles without interfering more than is absolutely necessary with the company's system.

ROOT'S SON NOW ENGAGED.

New York, Aug. 6.—Announcement is made of the engagement between Elihu Root, jr., eldest son of Elihu Root, secretary of state, and Miss Alida Livingston Stryker, eldest daughter of President M. Woolsey Stryker, of Hamilton college.

It was only a few days ago that the engagement of the daughter of Secretary Root to U. S. Grant, son of General Frederick D. Grant, was made public.

WARSHIPS BOMBARD FANATIC MOB AT CASABLANCA

Extreme Measures Taken in Putting Down Holy War in Morocco.

Tangier, Aug. 6.—The French cruiser Galilee was bombarding the Moorish quarter of Casablanca and the neighborhood of the city when the last steamer which has just arrived here, left that port. The Kabyles attacked Casablanca and the Moorish authorities applied to the commander of the Galilee for assistance. He thereupon landed sixty men and a Spanish cruiser landed forty. This landing party was fired on by the Kabyles and seven Frenchmen, including an officer, were wounded. The combined Franco-Spanish force thereupon cleared the city of hostile tribesmen, guards were placed about the foreign consulates and then the Galilee opened fire with her big guns on the rebels.

THREE WARSHIPS ENGAGED.

London, Aug. 6.—A special received here from Tangier today, describing the bombardment of Casablanca, says that the French cruiser Duchayla and the Spanish gunboat Don Alvaro de Bazan, participated with the Galilee in the bombardment of the villages surrounding Casablanca, which were destroyed by the fire of the warships. During the bombardment large reinforcements of tribesmen came up and many of them were killed or wounded. The Casablanca battery joined in the firing on the foreign warships, whereupon the guns of the French and Spanish cruisers were turned on the battery, which soon caused the Moorish commander to send a messenger to the French admiral requesting his pardon. This was refused and the admiral sent a peremptory order to the Moorish commander to surrender himself to the French consul.

AGREE UPON THE COURSE.

Paris, Aug. 6.—Foreign Minister Pichon and the Spanish ambassador here, Senor Leon Y. Castillo, have agreed to the Franco-Spanish note, informing the powers signatory of the Algeciras convention, including the United States, of the intention of France and Spain to keep within the terms of the convention. The situation after the landing of troops at Casablanca, will largely determine the subsequent measures to be taken by France and Spain. The French government has no confirmation of the reports that British or German warships are on their way to Morocco. No outside power is expected to co-operate with the two powers mentioned, viz: France and Spain.

FOREIGNERS IN PERIL.

Berlin, Aug. 6.—A special dispatch received here from Tangier today, says that the German charge d' affaires at Tangier called the attention of the French charge d'affaires to the dangerous position of foreigners at Mazagan on the west coast of Morocco, and that the French official directed a French cruiser to proceed to Mazagan. The many Germans at Mazagan, most of whom live outside the city, will be protected by the French cruiser.

GIVE LIQUOR DECISION.

Commissioners Make Ruling in Regard to Advertising of Applicant.

Goshen, Ind., Aug. 6.—The county commissioners yesterday held that when a saloon license applicant advertised in some obscure newspaper in the county in order to defeat possible action on remonstrance he is not giving the taxpayers of his locality sufficient notice, and his application is not in conformity with the law.

On this ruling William B. Whitehead's application was yesterday dismissed and the village of New Paris will remain dry.

TEN YEARS IN HOSPITAL.

New York, Aug. 6.—Bellevue hospital lost a patient who had been there ten years when Alfred Steward, 25 years old, died yesterday. Twenty-one house surgeons were interested at different times in his case in the ten years he was in the institution.

BENJAMIN PRILL IS VICTIM OF BOLD ROBBERY

Head Brutally Beaten and Money and Revolver Taken.

Benjamin F. Prill was brutally beaten about the head and robbed of $45 and a revolver on the cross road immediately back of Lindenwood cemetery at 11:30 o'clock this morning and after he had lain for some time beside the highway he recovered sufficiently to walk to the end of the Main street car line. He did not have a cent left and the conductor of one of the cars paid his fare and brought him to the city.

At Mechanic street Patrolman James Smith boarded the car and his attention was directed to Prill, from whom he learned the story. He took the injured man to headquarters, where he told of the assault and Chief of Police Ankenbruck went immediately to the scene of the robbery with a good description of the thief.

The back of Prill's head was badly pounded and there were a number of cuts and abrasions and a big lump on the left side of his forehead. Dr. M. W. Tinkham was called and had him taken to Hope hospital, where the wounds were dressed. There were no fractures and the victim of the assault will probably recover.

Said He Was a Detective.

Prill tells a story that indicates the planning of the robbery by somebody who knew he had the money in his pockets. He said that yesterday morning a man wearing a light suit of clothes and a brown slouch hat came to him at his rooming house, 1225 South Calhoun street, and representing himself as a Pennsylvania railroad detective, said he had been authorized by Capt. Henry Stoll to engage a man to aid in a search for some merchandise that had been stolen from a car.

The fellow told Prill he had inquired of the police and ascertained that he would be a good man for the work and he offered to pay him $2 a day. The proposition was accepted and the man agreed to return yesterday at 3 o'clock, but did not appear. He was there early this morning and the two left together.

They took a Huffman street car at Lewis and Calhoun streets and rode to the Lake Shore crossing, where they got off and started west along the tracks. The lowlands on both sides were searched and the two walked around to the Nickel Plate road and west to the cross road. There the man proposed to go over to the Pennsylvania tracks and when they reached a point at which they could not be seen the fellow drew a blackjack from his pocket and struck Prill several blows over the head.

He was stunned by the assault and as the man lay on the ground his money and revolver were taken. The robber jumped over the fence at the west side of the road and ran. It was some time before Prill recovered sufficiently to get to his feet.

Story Is Corroborated.

From the fact that Prill spends most of his time in the lobby of the court house and has no regular occupation the police were inclined to disbelieve the story, but Stationmaster John Terry was sent to a boarding house conducted by Mrs. Elizabeth Monroe at 1225 South Calhoun street. She said that Prill had some money and a Mrs. Edwards, who keeps the house at which he rooms, said she saw the man who engaged him as a detective and heard the contract made between the two. She also saw them start on the trip this morning.

Prill was formerly a farmer, but sold his place and moved to Fort Wayne, purchasing a home on Hayden street. He and his wife could not live together and about two years ago she secured a divorce. He states that the money he had was part of the proceeds of the sale of the Hayden street property.

WOMEN JOIN IN MOB THAT BEATS UP A BRUTE

The Assailant of Girls in Cleveland Roughly Handled by Females.

Cleveland, Ohio, Aug. 6.—Angry men and women formed a mob which threatened to lynch Walter McCracken, a carpenter, on Carnegie avenue, S. E., who last evening approached with insults, the police say, two little girls.

As a half dozen men held McCracken to the ground and were beating him with whips and kicking him with their feet, others were searching for a rope.

The arrival of a wagon load of policemen called out on a riot summons undoubtedly saved McCracken's life. He was quickly hustled into the patrol wagon and locked up in safety from the mob.

GAS ADDICKS NOW POOR AND THIRD WIFE TIRES OF HIM

Once a Millionaire and a Power in Politics, Now is Broke.

Philadelphia, Pa., July 6.—Dead broke and with debts of millions, J. O'Sullivan Edward Addicks, former senator from Delaware, arch gas man, and former friend of Thomas W. Lawson, is facing divorce from his third matrimonial venture.

This in itself would not worry Mr. Addicks, who is now [illegible] the wilds of lower Maryland, but the irony of the situation is that Mrs. Addicks No. 3 has about three quarters of a million dollars in stocks and bonds settled on her by her husband in a period of infatuation and about $200,000 worth of jewels bought on the proceeds of a sale of Amalgamated Copper on a tip from Tom Lawson. Besides, she is in possession of the homestead at Lynnewood, Del., which is worth possibly $50,000 more. None of this can Addicks touch.

At the same time of the news of the estrangement with wife No. 3 the fact also is made public that wife No. 2 has died and that the daughter of wife No. 1 is her administratrix and heiress. Wife No. 2 died possessed of about $300,000, all of which Addicks says her to be allowed to marry wife No. 3. He can't touch any of this, either.

Cupid Has Received Huge Toll.

So there is the curious spectacle of a picturesque fiancier and ex-senator, once worth $20,000,000, flat broke; wife No. 3 rich with his money and about to sue him for divorce; wife No. 2 dying rich also with his money and leaving it all to his daughter by wife No. 1.

Addicks, by the way, did a unique thing in American politics in regard to his daughter by wife No. 1. It is part of the secret history of Delaware that when he controlled the legislature and shortly after he was married to the present Mrs. Addicks he had passed a special act disinheriting the first daughter and making the two children of wife No. 3, who was a widow, his heirs-at-law.

Another thing not generally known is that Addicks' first two wives were sisters. No. 1 was Florence Butcher and No. 2 Rosalie Butcher, daughters of old Washington Butcher, millionaire packer and associate of the Armours and Cudahys in the early days. Wife No. 2 died and then the gas man married her sister.

Divorce Weapon Used.

It was about five years ago that Mrs. Addicks No. 2 began divorce proceedings, naming the present Mrs. Addicks as corespondent. Frank K. Hipple, the suicide president of the Real Estate Trust company, who wrecked the concern, acted as a go between, and Addicks paid $150,000 cash and much property to secure Mrs. Addicks No. 2's consent to withdraw all charges and file a new suit on the grounds of desertion. When this was accomplished he married Mrs. Addicks No. 3, who had been Mrs. Martha Wilson, wife of a former secretary of the Union league.

"I don't want to talk about it," said Mrs. Addicks No. 3 last night over the long distance phone. "I won't deny it, though. Shall I stay here at Lynnewood? Well, I'd like to see any one put me out."

The papers, it is said already have been drawn up. They charge infidelity.

LEAVE FOR CLEVELAND.

About Forty Lutheran Clergy Attend Synodical Conference.

A number of Lutheran ministers, teachers and lay delegates, amounting in all to about forty, left this morning over the Wabash to attend the annual synodical conference of the central district of the Missouri synod. They will make the trip to Toledo by rail and will there take a boat for Cleveland, where the conference is to be held.

The central district includes the western part of Ohio, southern Michigan and northern Indiana. When all the cities are represented at Cleveland they will make quite a large number. The purpose of this conference is to discuss business and the doctrines preached. It will last one week and on next Sunday the pulpits of the local pastors will be filled mostly with foreign talent.

The general assembly, which meets every four years, will come to this city in 1908 and it is estimated that fully 500 clergymen will attend it. The annual district assembly met in this city a year ago at this time.

GIRL DANCES SELF TO DEATH.

Trips Light Fantastic Until Early Morning.

Evansville, Ind., Aug. 6.—When she danced all evening and into the early hours of the morning on a river trip recently with her family, Miss Rose Zipp, 18, a prominent society girl, little dreamed that she might be dancing herself to death.

She danced on and on in her high spirits with the half score of couples, charmed by the strains of sweet music.

Miss Zipp had hardly retired to her stateroom when she began to feel the effects of her many hours of pleasure. Arriving home she grew gradually worse from day to day, and after suffering from typhoid fever for two weeks died yesterday. Dr. Varner said yesterday that her death was directly due to her overexertion in dancing on the river steamer.

SENTENCED TO BE HANGED.

Garrett, Ind., Aug. 6.—A representative of the Western Construction company was interviewed by your correspondent this morning and he stated that on account of bad weather this summer their work had been greatly interferred with and delayed. He further stated that if everything is favorable they would finish their contracts here by September 1st. There has been much uneasiness on the part of the city and its people concerning the paving improvements not being finished, but the official gave the assurance that with favorable weather the streets would have been finished. Some of the work here has been in progress something like a year.

PREPARING FOR COMING OF CREATORE AT WINONA

Dr. Hughes, of Depauw and Leon H. Vincent Speakers Today.

Winona Lake, Aug. 6.—This morning opened up with the cheery sunshine of a promising day. A very large excursion from the Sunday schools of Anderson, under the direction of Albert A. Small, came in over the Big Four and enjoyed the day in the program provided for these annual excursionists. Anderson is established in her ways toward Winona. The excursionists had chartered the "City of Warsaw" and made their plans for an over the water trip. All was in perfect order. Dr. Edwin H. Hughes, president of DePauw university, so popular among educators of this country, came in last evening and has been on the grounds shaking hands with former students, now the alumni of the noted university. A large number of Methodist pastors are also making this their week at the Assembly. Leon Vincent lectures this afternoon on "Lord Macauley as Conversor and Historian." His popularity as a literary interpreter always brings to him a large audience and he was not disappointed in the congregation which greeted him this afternoon.

The evening lecture will be delivered by Dr. Hughes and will be one of the great treats of the session. He is undoubtedly a "marked man" for the bishopric and there is little doubt but that 4,000 people will hear on this occasion a future bishop of the great Methodist Episcopal church.

All roads are being turned toward the coming of Creatore and his band who are due here for two great concerts tomorrow. The Pennsylvania railroad is running its first special train and low rate to Winona this season—using the regular afternoon trains out of Fort Wayne—and giving a special for return of the passengers after the entertainment in the evening. A rate of 75 cents for round trip has been made from Fort Wayne. A like arrangement has been made for passengers from the west. The Big Four brings in the Marion District Epworth League and the Sunday schools of that city on a special train. Large crowds have been promised from the many points and will swell the crowds on the ground. The Auditorium audience last evening showed an increase over many of the last week crowds which indicates that for the closing days of the Assembly the Auditorium will be crowded at every lecture and entertainment. The Creatore crowd will likely test the capacity of the grounds, as the opportunity is on but the one day.

In the afternoon the Milford team and the Winona Academy team will play off the tie of "2 to 1" in their double diamond contest. This will be one of the most closely contested games ever played upon the Winona diamond.

TOOTS HER TRUMPET OF ACHIEVEMENTS IN KOREA

Japan Tells What She Has Done for Hermit Kingdom Since 1904.

Washington, Aug. 6.—The far eastern mails just arrived contained a pamphlet issued from the Japanese residency general of Korea, entitled "administrative reforms in Korea," designed to vindicate the work of the Japanese in the hermit kingdom under the authority conferred by the Japanese-Korean agreement of 1904, whereby Japan was constituted adviser to Korea. The document treats of the financial difficulties that confronted Marquis Ito at the outset, owing to the inadequacy of the Korean exchequer to bear the cost of reform. He succeeded in raising a loan from the Japanese Industrial bank of ten million yen, guaranteed by the custom receipts, bearing interest at 6½ per cent. and sold at ninety yen per one hundred yen. This money was distributed in the reconstruction of roads and other improvements. The Korean roads were unfit for travel. Even Chemulpo was unable to supply ships with drinking water and the inland towns were in danger of epidemics.

An entirely new system of water supply has been projected, also a new educational system which displaces one of little value.

The police department has been improved.

Of the remarkable attempt to purify the imperial court, the pamphlet described the reform measures adopted to take the place of corruption, chicanery and sloth.

"The way in which justice has been administered," it is stated, "is too revolting to all sense of decency to be told in detail." It is charged that bribery is general. In reforming the currency system, the gold standard has been adopted and private coinage prohibited.

OLD ENGINEER KILLED.

Illinois Central's Oldest Locomotive Driver Hit by Train.

Chicago, Aug. 6.—James H. Banta, the oldest engineer on the Illinois Central railroad, was struck by an engine and instantly killed while crossing the tracks yesterday. For forty years Banta has driven or stoked engines over the tracks on which he met his death and had survived four wrecks without injury.

Banta, who was 62 years old, was struck by a train which he had himself driven for ten years. Banta was soon to retire on a pension.

Among dangers that Banta survived before he met his ordinary sort of death were the explosion of his locomotive boiler, twice running into an open switch and once falling through the cab window while the locomotive was running at full speed.

IN BUYING CLOTHES

Or anything else, it's a good thing to know exactly what you are getting; the ignorance of the buyer is often a great source of profit to some merchants.

When you see an Ely Meyer, Stein Bloch, Hirsch Wickwire, Hart Schaffner & Marx label in a garment, you're at once in possession of all the knowledge you need; it tells you everything; we don't need to say a word.

You know it's all-wool, all right in style and tailoring; and we'll guarantee a fit.

HOLDS THE SECRET OF MISS MATTHEWS' TRAGIC END

Miss Green's Story of the Death of Actress Said to Vary Much.

Colorado Springs, Col., Aug. 6.—The statement which was made to Charles A. Coey, of Chicago, at Kansas City at the time of Miss Laura Matthew's funeral by Miss Tillie Green, the nurse of the dead girl, which was published throughout the country, tends to support the theory that Miss Green knows more about the case than she cares to tell. In her signed statement the nurse says that Amos R. Rumbaugh may have been the direct cause of the girl's death. She also says that Rumbaugh sent the message to Coey, saying:

"Laura killed herself on account of you."

"The story about Laura picking out her own coffin is false," now says Miss Green. She also denies strenuously that she said she would make Coey suffer for this or that; that she would make him pay dear for these letters.

In sworn testimony before the coroner's jury at the Matthews inquest Miss Green admitted that she accompanied Laura Matthews to Fleming's undertaking room in this city about a week before the girl's death. She also testified that Laura went so far as to select the coffin and say:

"The lining of this one suits me. They can lay me away in this."

With regard to Rumbaugh's connection with Miss Matthews' death, Assistant District Attorney Trowbridge asked Miss Green if she thought Miss Matthews committed suicide, and she answered, "I certainly do." In the Kansas City statement she said she believed Rumbaugh killed her.

On the day of the inquest Miss Green said to a reporter:

"I will make Coey smart for this. I will make him pay for these letters and I will set the price."

The nurse seems to have either perjured herself at the inquest and lied to various correspondents or she is not telling the truth in the signed statement given by her to Coey at Kansas City. The affair has excited intense interest in this city. The theory that Rumbaugh may have murdered Miss Matthews, which at first caused a sensation here, is now gaining credence as developments come in the case.

KING OF SIAM VISITS BERLIN.

Will Be Guest of Kaiser Wilhelm at Cassel.

Berlin, Aug. 6.—The king of Siam yesterday received his physicians and discussed with them his ailments, which chiefly concern his majesty's digestive organs, after which the king went out to see Berlin with Gen. Von Kessel, who has been assigned by the emperor to escort his majesty. It has been arranged that Emperor William will receive the Siamese king at Cassel.

RICHARD MANSFIELD IS INSANE AND UNDER A GUARD

Great Actor Tosses in Bed and Declaims Famous Plays of Past.

Saranac Lake, N. Y., Aug. 6.—The "Beau Brummel," the "Baron Chevriel" and the "Dr. Jekyl" of Richard Mansfield will probably never be seen on the stage again. Shattered in body, impaired in mind, the American actor lies guarded night and day in a little cottage in the heart of the north woods at Apersand, declaiming, between coughing fits, the lines of the parts he made famous, and weeping when they carry from his sight the costumes he wore in his most successful plays.

While his wife and brother declare Mr. Mansfield is steadily improving, they are wiring to Toronto for physicians to hurry to his side, and it is said that more intimate friends have been informed that while there is no immediate danger of death, there is great doubt whether the great actor will ever leave his bed.

Deny Consumption Story.

That Mr. Mansfield is on the verge of consumption is denied only by his brother and wife. Dr. Lemie, the great tuberculosis specialist from Montreal, refuses to answer when questioned about his patient's lungs.

To the persistent reports that nurasthenia is also imminent or has already appeared they answer in the negative.

Yet it is known today that the sick man weighs less than 100 pounds, is too weak to rise from his bed, can not speak a dozen words without a paroxym of coughing, yet insists on having at his bedside all the stage raiment he has worn in his triumphs from "Richard III" to "Old Heidelburg;" then calls his wife to listen by the hour while in husky voice he plays over, line for line and word for word, the great dramas of his career.

What is much worse, when nerve weakened he was hurried off to Europe in the early summer by his brother and his wife. Ever since his arrival here he has failed. Two extra nurses have been procured, and Dr. Lemie has been called to Saranac Lake.

Wife Makes Statement.

Mrs. Mansfield is striving to conceal her husband's real condition from the public. The devoted wife last night gave out this statement:

"It appears that the English voyage did Mr. Mansfield little if any good. His extensive travel in search of health was wrong. It was too much exertion. But now that we have returned we find the quiet and mountain air are better. I look for a speedy recovery and my husband's quick return to his career."

New Bedford, Mass., Aug. 6.—Despite persistent rumors from New York that Henry H. Rogers is seriously ill, it is maintained at his residence in Fairhaven that he is in his usual good health. It was stated today that the only indisposition which he has had of late was a recent attack of indigestion, from which he has recovered.

Mr. Rogers expects to return to New York on Sunday or Monday.

Nate Murphy, a gang foreman at the Wabash shops, is on duty again after a few days' absence.

Col. R. G. Thompson, of the Wabash, says the excursion out of the city tomorrow will be all that could be expected in that line. All of the berths in the special car except a few uppers, have been reserved, and it is believed that all will be occupied when the train is on its way. There will also be 100 or more who will not take sleeping accommodations. This will be the first Niagara Falls excursion of the season.

Grand street, in the vicinity of the Wabash freight house, is receiving a new coat of crushed stone, a badly needed improvement.

Mart Cleary is in Toledo today attending a ball game.

John Koehl, assistant to Chief Car Inspector W. W. Todd, of the Pennsylvania, and his family, left at noon today for Cleveland, where they will visit his sister and other relatives.

LIES ON GROUND; GOES INSANE.

Woman Attends Camp Meeting; Says She Goes to Heaven Each Night.

Evansville, Ind., Aug. 6.—As a result of lying for forty-eight hours on the ground at a camp meeting, held in a tent here last week, Mrs. Francis J. McQuerry, aged 68 years, has gone violently insane. She declared before a commission in a justice court yesterday that she goes to heaven every night.

Rushing from her home yesterday morning she prayed in the street, and later on tried to drag her neighbors' children into their house, where she said she would start for heaven with them.

The camp meeting which Mrs. McQuerry attended was held by the Free Will Methodists.

S.S.S. CURES ECZEMA

The cause of Eczema is a too acid condition of the blood. The itching, burning eruptions are caused by the outpouring through the pores and glands of the skin, of the fiery poisons with which the circulation is loaded. This acrid matter coming in contact with the delicate tissues and fibres with which the skin is so abundantly supplied causes irritation and inflammation and often excessive discomfort and annoyance. While external applications, such as salves, washes, lotions, etc., are soothing and cleansing they are in no wise curative, because they do not reach the blood where the trouble is located. You can never cure Eczema with outside treatment; the blood must be purified. S. S. S. is the best treatment for the disease. It goes down into the circulation, neutralizes the acids and humors with which the blood is infected, and makes the blood-current fresh and healthy. Then instead of fiery, acrid matter oozing out through the pores and glands, irritating the cuticle, the skin is nourished by a rich, cooling, healthy stream of blood. S. S. S. removes every trace of the disease, and when the cure is complete the skin is left smooth and free from any eruption. Book on Skin Diseases and any medical advice furnished free of charge to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Let stand all night if weather is cool, or else six hours, then bring to a boil and skim well. Cook ten minutes and take out the fruit; boil the juice down from ten to fifteen minutes and strain through a hot cloth over the fruit. Put into jelly glasses, and when cold cover with paraffine; keep in dark place; do not double this rule or you will crush the fruit.

Rhubarb and Fig Preserves—Cut rhubarb into inch lengths and measure three pounds. Take half a pound of ordinary dried figs and cut into quarters, and half a pound of candied orange peel, with two and a half pounds of sugar, the juice of a large lemon and its grated yellow rind. Put this into a large kettle in layers with the sugar and let it stand, covered, all night. In the morning boil it down slowly till it is thick; about an hour will do. Delicious for sandwiches for afternoon tea.

English Rhubarb Jam—Take eight pounds of rhubarb cut fine, five pounds of sugar and three pounds of blanched almonds, chopped. Mix well and cook till as thick as orange marmalade. This is a rich dark jam, which will keep indefinitely.

Rhubarb and Orange Preserves—Peel six oranges, scrape off all the white part and slice, taking out the seeds and cutting out the core as you do so. Scrape off the yellow part of the rind and add, after chopping it fine. Mix with a pound of cut-up rhubarb and a pound and a quarter of sugar, or, if the oranges are sour, a pound and a half. Simmer till thick.

Melon Jam—Either watermelon or cantaloupe may be used. Pare the rind (after removing the greater part of the pulp) and cut in very small dice. Pare and shred one large pineapple, add to ten pounds of melon, sprinkle with four pounds of sugar and set aside for thirty-six hours. Skin one-fourth pound of green ginger, cut it very fine and add to the melon, adding also three more pounds of sugar and the juice of three lemons. Simmer for four hours.

As an instance of the tragedy of foreign missions, Dr. Hopkins, of Beirut, Syria, referred to the fact that four of the members of that mission gave four years of devoted work to preparing an Arabic translation of the bible, and then found all their labor lost because the American Bible society could not provide the necessary $10,000 for the publication.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I gave you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—Sam H. Gwin, Concord, Ga. For sale by all druggists.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Rather tough on the Alton, after being Harrimanized, to face the prospect of going through Judge Landis' mill at Chicago.

It appears that the oil monoply had been anticipating the soaking it got from Judge Landis. Price of oil was boosted some time ago and by now the trust ought to have the money ready to settle its score in court.

It was noted that when John Dee heard the sentence Judge Landis had given the Standard Oil company, he "never turned a hair," lost his color, his self-possession or his golf stick, from which it may not be unreasonable to infer that John merely got what he was looking for.

If the immigration laws would just head off the hordes from Southern and Southeastern Europe for a few years until the country has had time to digest the hordes already here and but recently arrived, perhaps "crime waves," assassination cults, blackmail guilds and many other societies of general devilry would not so greatly disturb the peace and order of society.

Heap o' trouble railroads are having with those southern states. Alabama is trying to oust a whole system, Virginia is getting ready to do more things to the roads if they don't promise to be good under the laws that are, and North Carolina is ready for another war with the federal government if Judge Pritchard doesn't come down from his perch and bring the rail officials with him. All largely the result of such rapid development of the south as to cause the states to become more or less railroad-ridden.

The fact that there is enough "on" the Kennedy saloon to prevent the proprietor from getting his license renewed is a matter of public interest. A dozen or so joints of like character could easily be prevented from getting license if proper effort were made. Meanwhile, it will be interesting to observe how long the Kennedy place will be permitted to run without a license. It is not so very long ago that it was discovered that one down town place had been running for months without a license. The grand jury took care of that case. However, it would be pleasant and refreshing to see the police do a few stunts of the sort, as a sort of guarantee of good faith.

The death of Hon. Alonzo Green Smith, at Indianapolis, takes from the democratic party of Indiana one of its strong men. He was a determined and masterful man, an exceedingly able lawyer, a good politician and a companionable associate. Twice elected attorney general of the state, Green Smith will nevertheless be longer remembered for his part in the strenuous session of the Indiana senate in 1887, when his force and determination as well as his parliamentary abilities maintained control of that body for the democrats, gave the state a democratic United States senator to succeed Benjamin Harrison and incidentally put into the records the story of one of the most stormy and riotous sessions an Indiana legislative body ever held. Green Smith was much admired for his abilities and his force of character, but the positiveness of his nature and his extremely candid manner of expressing what was in his mind had the usual effect of such characteristics and so there were those who did not like him. Nevertheless, he was a big brainy man who was held in high esteem and was best liked by those who best knew him.

DeKalb County Man's Experience With Lightning.

Auburn, Ind., Aug. 6.—Trustee John Oster, of Richland township, had a narrow escape from death Thursday evening. The threatening rain caused him to hurry home, running nearly a half mile. A few moments later he saw a flash of fire and the next he knew his wife was dousing water in his face. Lightning had struck him and put his mind out of commission so suddenly that he did not hear the loud peal of thunder which followed. He did not remain unconscious long, but it was a few exciting moments for Mr. Oster. He still feels the effects of it. It was a narrow escape, but he is thankful that it was not worse.

RETAIL MERCHANTS TO GIVE PURE FOOD EXHIBIT

Vinegar Manufacturer Gets Some Attention at Merchants' Meeting.

The regular monthly meeting of the Retail Merchants' association, in which was included a buffet luncheon and the passing around of the cigar box, occurred last evening in the rooms of the Commercial club. The meeting was intended for business and quite a little of this was done, but the members could not forget the luncheon at the end. Extensive preparations had been made for this meeting and invitations had been sent out to those who were not members of the association.

The pedlers' license worried the members of the association last evening and it was decided to ask the board of safety to co-operate with them in this matter and the board will be asked to instruct all patrolmen to see that every pedler with whom he comes in contact has a license. The city council recently passed an ordinance to this effect and the members want it obeyed.

The members were very enthusiastic over the prospects for another pure food show when the question came up and it was decided to hold another in connection, with the grocers and butchers. The date was left for another meeting. The pure food show last year was so successful and reflected so much credit upon the local exhibitors that the members feel that they would like to make it a yearly feature.

There was one sore spot at the meeting last evening and that was forcibly brought out when one of the members, who was a grocer, got up and introduced a Mr. Meyers, of Roanoke.

Mr. Meyers is a seller of vinegar and in view of the fact that several of the grocer members have been prosecuted and fined recently for selling adulterated vinegar, which they had bought in good faith, it did not tend to make Mr. Meyers' reception a pleasant one. Several members got up and told the experiences through which they had to go on account of having Meyers' vinegar in their store. A spicy and warm debate resulted.

The association decided to select a committee to confer with the county commissioners and see whether or not the court house could be kept open on Sunday from the hours of 9 in the morning to 6 in the evening, and the providing of a custodian to show the Sunday visitors to this city the pride of the whole community. The committee selected is composed of Messrs. Coverdale, Hite and Ray.

The meeting was very well attended last evening and President Walter Seavey conducted it. Nine applications for membership in the association were passed upon and although this number is not as great as was hoped for, still it makes a good showing. The new members accepted last evening were as follows: H. E. Lowery, L. R. Welker, L. Lixtker, P. E. Enrich, L. J. Bender, L. J. VanTochine, W. H. Dunn, J. E. Oellinger and Mendel Frank.

CAREER OF A FIGHTING CHAPLAIN IS AT AN END

Rev. Lozier, Famous Figure of Civil War is Dead at Iowa Home.

Mount Vernon, Iowa, Aug. 6.—John H. Lozier, known throughout the civil war as the "fighting chaplain," died at his home in this city Sunday. He had been ailing for some time, but in spite of his 7 6years he fought bravely to ward off death until the last.

Chaplain Lozier was famous on the battlefields of the civil war not only as a preacher when the soldiers rested after an engagement with the enemy, but also as a singer. His melodious voice was often raised in patriotic song to cheer the drooping spirits of his "boys" and he was always ready to oblige them at the camp fires.

When the war broke out he was riding a circuit in Indiana and preaching Methodism. He went into the church pondering on the sermon he was about to deliver and wondering whether he could impress his audience. During his discourse, a courier dashed into the church and shouted the news: "Fort Sumter fired on. Abraham Lincoln wants 75,000 volunteers to put down the rebellion."

The sermon was dropped and Rev. Mr. Lozier delivered a fiery war address. Before he left the church he had organized a company and entered himself as a private. He was elected chaplain of the Thirty-seventh Indiana regiment, and later was promoted to chaplain in chief to the Army of the Cumberland. He soon established a reputation for the singing of patriotic songs, and would get up on a stump or mount his horse to sing "Rally Round the Flag" and "The Sword of Bunker Hill." He became known as the "fighting" chaplain because several times he forgot that he was a clergyman and joined in active war against the confederates. Had he been captured he would have had a drumhead court-martial and been shot as a combatant. He fought and won the battle of prohibition in Iowa and waged continual warfare against the liquor traffic. For twenty years he had been on the lecture platform.

Clarence Campbell has returned to his home in Kansas City, Mo., after a visit with relatives in this city.

HARDWARE

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in rounded comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

REGRET JUDGE LANDIS' FRESH ATTACK ON THE ALTON

Administration Men Say Road's Officials Are Needed Witnesses.

Chicago, Aug. 6.—A special from Washington printed in the Tribune today says:

Determined as the government is to prosecute the Standard Oil company to the full limit of the law, it has no such designs upon the railroads which gave the rebates to the trust.

In directing District Attorney Sims to impanel a special grand jury to indict the Chicago and Alton, Judge Landis has taken a step the administration is disposed to regret. Its attitude is due to the fact that it was through the railroads that the evidence was obtained which enabled the prosecution of the Standard Oil company on such a large number of counts. In addition, the investigation made by the bureau of corporations established the fact that the Standard Oil company acted the part of a highwayman toward the railroads just as it did toward the people. It forced them to grant rebates by declaring they would get no business if the regular tariff were applied, and that their competitors would be given all shipments, so that they would suffer in consequence.

Sims Likely to Go Slow.

District Attorney Sims has been informed of the view of the authorities here, and it is not expected he will proceed against the Chicago and Alton and other railroads involved in the counts yet to be disposed of with the same grim earnestness he displayed in his attack upon the oil corporation. Of course, the government had no control over Judge Landis in this matter, but if it had had there is little doubt it would have advised against prosecution of the railroads.

This does not mean that any sympathy is entertained here for rebating. But the moral effect of the tremendous fine imposed upon the Standard Oil company is such that the practice is believed to be finished forever, unless the government later on should relax its vigilance.

Some months ago the railroads were given a hint of what might happen to them when the New York Central was convicted of granting one rebate to the Standard and was fined $15,000, which is $5,000 less than the maximum penalty. The prosecution of the New York Central was brought because that road declined to furnish the bureau of corporations with any information whatever in regard to its relations with the oil octopus.

Would Cost Alton Dear.

In the case of the Chicago and Alton and all other railroads which have had dealings with the Standard it is highly probable if the cases are brought into court that the government will suggest the imposition of the minimum rather than the maximum fines. But even this would be a tremendous penalty. It is estimated it would aggregate $75,980,000. If the Standard should be convicted on all counts pending against it and the maximum fine imposed on each count it will have to pay a total of $151,960,000. This, with the railroad fines, will mean an aggregate of $227,960,000 which the government will collect as a result of the prosecutions.

In considering the justice of the action of Judge Landis in imposing the maximum fine upon the Standard Oil company attention may be called to the fact that the question involved is not so much that of the quantity of oil transported or that of the actual saving on freight rebates which the Standard made. As a matter of fact, the report of the commissioner of corporations estimates that the discriminations saved the Standard only about a quarter of million dollars yearly.

How It Crushed Rivals.

But this discrimination gave the trust an advantage far above the mere reduction in rate. It insured the success of its monopolistic tactics. An independent refiner would have to pay the open rate while the Standard enjoyed the secret and lower rate, and the difference would enable a lower selling price, to his injury and final destruction.

Until the bureau of corporations commenced its investigation the independents could not understand why they were unable to meet the Standard's competition. They did not suspect the advantage in freight charges which their grasping competitor enjoyed. By means of the rebates from the railroads connecting Chicago and St. Louis the Standard was able to gain absolute control of the entire southwestern field, which includes the states of Missouri, Arkansas and Texas and the territory of Oklahoma.

Ground for An Appeal.

It is expected the Sandard will base its appeal to the supreme court on the ground either that Judge Landis' sentence constitutes a cruel and unusual punishment in violation of the constitution or that the Elkins anti-rebate law is unconstitutional. As to the former, the evidence obtained by the bureau shows that the profits of the Standard Oil company in 1893 amounted to $81,000,000, in 1894 to $61,000,000, and in 1895 to $57,000,000. At the least the trust has been making $57,000,000 per annum for years.

The authorities here do not believe for a moment that the supreme court will reduce the fine on the ground that the punishment is cruel or unusual. The suggestion of John D. Rockefeller that it will be a long time before the fine is paid is not likely to be a true prediction in view of the determination to expedite the consideration of the case by the higher courts.

Oil Always Going Up.

The report of Commissioner of Corporations Smith, made yesterday, shows there has been a gradual increase in recent years in the price of oil. The present year has been no exception. But the Standard Oil company may find difficulty in raising its prices sufficiently to obtain additional funds with which to pay the fine. Since the bureau began to publish the result of its investigation independent refineries have been established all over the country, and today the Standard faces a greater competition than ever before in its history.

An increase of only 1 cent per gallon upon oil sold by the Standard would mean an additional revenue of about $34,000,000 per annum. Such a sum would more than meet the fine imposed by Judge Landis, but it would not be sufficient for penalties which still may be imposed.

Pastor Clad in Overalls Paints the Church Building.

Malden, Mass., Aug. 6.—Rev. John Newberry, pastor of Pentecostal church, yesterday morning began painting the exterior of the church building, aided by several members of the congregation.

The church is a struggling one and a few days ago the pastor said he would do the painting if some one would provide the paint, which the citizens did, and Rev. Mr. Newberry went bravely to work yesterday morning clad in overalls and a jumper donated by a clothing firm.

Before starting in the pastor held a short service on the sidewalk, praying and reading from the scriptures. His wife served lemonade at intervals to her husband and his helpers, while women of the congregation encouraged the workers by singing hymns inside the church, one of the number playing the organ.

RATE CASE IN NEBRASKA.

State Commission Is Holding a Hearing for Railroad Men.

Lincoln, Neb., Aug. 6.—The state railway commission today listened to the evidence of railroad men and express men who have filed schedules of proposed advanced rates on cream transportation. Representatives of Nebraska creameries who are fighting the increase were present with opposing testimony. The railroad contended that the proposed increase in cream rates puts cream and butter on a parity and permits small creameries to be established throughout the state. Under the present rates cream transportation is much cheaper than that of butter and the cream is all transported to the few large creameries. The attorneys for the creameries insisted that local creameries cannot be established because of the scarcity of cream.

A walking skirt of some serviceable fabric such as serge and a sweater is the most practical costume for wear at cool resorts. The Scotch serges in brown, red, green, blue and gray colorings and mixtures of these are particularly fetching when made up along the lines of this model, which is a gray and brown skibo mixture. The natty white sweater completes this stunning suit.

Have Trouble with Your Food?

Grape-Nuts

Perfectly Cooked,

Ready to Serve,

Delicious and Healthful.

"The ordinary breakfast cereal cooked a few minutes in a half-hearted way will in time weaken the stomach of anything short of an ox.

"Any preparation of wheat or oats put into water that is below the boiling point and cooked as mush is usually served, remains a pasty, indigestible mass. The cells are tough and unopened. In addition, the stomach of a person sensitively constituted refuses to do anything with the pasty mass. It is sent into the second stomach, the Duodenum, where in consequence of the long time of the first process of digestion, is fermented and soured. As an eminent medical man pertinently states, the stomachs of half the people going about the streets are about in the condition of an old vinegar barrel.

"Intestinal dyspepsia is the direct consequence of such feeding."

Knowledge of these facts and a wide experience in the preparation and use of cereals brought out the product known as Grape-Nuts, manufactured with special reference to having the nitrogenous and starchy parts of the grains, of which the food is composed, perfectly and scientifically cooked at the factory, ready for immediate use and therefore not subject to the manipulations of any cook, good or bad.

The starch of the grains, changed to grape-sugar, can be seen glistening on the little granules, and gives forth a delicate sweetish taste, very palatable.

Children and adults obtain fine results from the use of Grape-Nuts food. It is so perfectly adapted to the wants of the human body and so easily digested that many cases are on record of nursing babes being fed very successfully on it. "There's a Reason."

MISS MAGILL MAY GO ON STAGE.

Daughter of Clinton Suspect Offered Place with "Girl Rangers."

Bloomington, Ill., Aug. 6.—Attorney R. A. Lemon, who is representing Fred Magill and wife, under indictment at Clinton for murder, yesterday announced that Miss Marguerite Magill, who accompanied her father and his new wife to California, had received a flattering offer to go on the stage Sept. 1. The offer came from Manager George W. Lederer, and the position named was with the Girl Rangers company. Miss Magill was educated at Sinsiniwa, Wis., and has considerable dramatic and elocutionary talent. She has not yet made up her mind whether to accept or not.

DECISION FAVORS MINISTER.

Board of Works Says He May Build Chapel.

Kokomo, Ind., Aug. 6.—By action of the board of public works yesterday the chapel which Rev. George Babcock is erecting at the end of Meridian street will go forward. Although the residents of this locality and particularly along High street had protested against the chapel as constituting a public nuisance, the board of works declined to assume jurisdiction in the premises.

Back of the fight was the realization that the erection of the church would delay, if not absolutely prevent, the construction of the street along the Carter street levy, which would afford communication from South Kokomo to North Kokomo by a more direct route than has hitherto ever been afforded.

Frank Falke has returned from a trip in the west, where he attended to several mining interests.

SALOON MEN GAIN VICTORY.

Bedford Temperance Forces Find Many Signers Removed From Ward.

Bedford, Ind., Aug. 6.—The fight to remove the saloons from the Third ward resulted in a fizzle. The temperance people yesterday withdrew their remonstrance after it was found that some of the signatures were those of voters who no longer lived in the ward and that other signatures were not legal.

Licenses were yesterday granted three saloon keepers in the Third ward where the battle had been so hotly waged. The temperance people say they are thoroughly organized and will renew the fight along such lines as will compel not only the saloon men, but the business men also, to recognize them. Some of the merchants have already been told that they are to be boycotted if they refuse to sign the next remonstrance.

Three of the saloon keepers against whom Prosecutor Fletcher filed affidavits Saturday, alleging that their places were public nuisances, have surrendered their licenses and quit business rather than make a defense and face the charges.

DEATH TAKES SLEEPWALKER.

Wife Returns From Party and Finds Husband's Dead Body.

Wabash, Ind., Aug. 6.—Charles Derf, 32, is dead at North Manchester as the result of an accident probably caused by walking in his sleep. He retired early, and his wife, who had been attending a social event, returned home about midnight to find him lying injured on the cement sidewalk in front of his house.

He had walked through a second-story door and fallen to the cement pavement. He did not regain consciousness. His wife was almost prostrated from finding his unconscious form.

PENSION FOR CONDEMNED MAN.

Harrisburg, Pa., Aug. 6.—Jacob Stehman, under sentence of death in the Dauphin county prison, has been notified that $800 of back pension money due his deceased father had been awarded to him by the United States government. The man had no money for his defense and was convicted for wife murder. Stehman will now make an effort to get his case before the board of pardons.

KILLED IN A GAS EXPLOSION.

Shelburn, Ind., Aug. 6.—F. T. Delashmut, receiver for the A. H. Whitsett Coal company, was instantly killed by a gas explosion in the mine yesterday. George Anderson, mine boss, suffered serious injuries. The men were inspecting the mine and it is supposed that the gas was ignited by their lamps. The explosion wrecked the tipple.

Have you never wished that some member of your family could play the piano?

Of course you would rather play yourself, because you know it must be much more interesting to produce music than merely listen to it. You wouldn't practice when a child, however, so you think you must be satisfied just to hear someone else play occasionally.

The Pianola Piano was inventd just for you

Investigate this wonderful instrument that in less than five years has become the most popular piano in the world. You will then understand why so many other people are buying them.

You will realize that if you owned one there would always be someone in your home to play.

And you would recognize the astounding fact that that someone who could play so well, whose repertory would be so great, might be you yourself.

You are not investigating the Pianola Piano when you hear and see any instrument not made by the Aeolian company. No other has either the Themodist or Metrostyle or other exclusive features which have made the Pianola Piano such a wonderful success.

CUCUMBER SALAD.

Cut off three-quarters of an inch or more from the ends of each cucumber, and take off a thick paring, as the bitter juice lies next the skin. Shave with a vegetable cutter or cut in thin, even slices and throw into ice cold water until ready to serve. Drain, place in a pretty china bowl or low glass dish with cracked ice and serve with a French dressing or simply salt, pepper and vinegar. Bermuda onions or young home grown onions, sliced thin, are often mixed with cucumbers. In this case a dusting of finely minced parsley over the salad will do much toward removing all odor of the onion. A little minced fresh mint is also deemed an addition to raw cucumbers by some people. Cucumbers also combine well in salad with sliced raw tomatoes, ribbons of green peppers and cold boiled pickled beets.

Chicago, Ill., Aug. 6.—After Ames had given Chicago a good lead by his wildness, passing the first two men up, hitting the third and making a wild pitch in the fourth that scored a run he settled and pitched a fine game. The visitors hit Taylor and tied the score in the eighth on three singles and a triple and won out in the ninth on a gift and Bresnahan's three-bagger. McGraw, Mathewson, Shay and Dahlen were ordered off the field for too much argument with Umpire Klem. Score: R.H.E.

Alice Pointer Takes Dominion of Canada Purse in Straights.

Buffalo, N. Y., Aug. 6.—The Grand Circuit meeting here opened under unfavorable weather conditions, a light rain falling throughout the four races. The rain did not affect the track and fast time was made in the 2:12 pace for the Dominion of Canada purse of $10,000.

Reproachless, winner of the Chamber of Commerce stake, proved a disappointment, being unplaced. Reproachless and Alice Pointer sold for $50 in the pools, the field going at $20. Alice Pointer took the race in straight heats, Reproachless just beating the distance flag in the first heat.

Beatrice Bellini, the public choice in the 2:16 trot, justified her backers, winning in straight heats. Index, who was fancied for the 2:09 pace, also won in straight heats, while the first race, for 3-year-old trotters, was won handily by Bell Bird in straight heats. The summaries:

SPORTING NOTES.

The Lagro team of the Wabash Valley League, has three Andersons on the club roster.

Pitcher Chenault, who was loaned by Indianapolis to Terre Haute, has been recalled.

"Buck" Weaver has signed with the Richmond Indiana-Ohio League team and will play in the outfield.

Elmer Flick has reconsidered his resolution to quit base ball and is now back at the head of the Nap batting list.

Boyd, who had a try-out with Fort Wayne in Central League days, held Kokomo to four hits in the Sunday game.

Van Wert is the first of the Indiana-Ohio League teams to let out the old "bush league holler," "robbed by the umpire."

Instead of being farmed to the Toronto club Pitcher Frank Oberlin has been sold by the Boston Americans to Washington and Morgan purchased from St. Louis by the Beans.

Joe Gans has reached Los Angeles to train for his coming bout with George Memsic. The bout is to take place on Labor Day, and Gans intends to start his preparation work immediately.

Lew Wiltse, until recently in the Tri-state League, has been reinstated by the national commission with the proviso that he report regularly to the commission at stated intervals. The body will decide later on his permanent reinstatement.

Ben Selig, manager of Joe Gans, and Willie Britt, brother and manager of Jimmy, met and failed to agree on terms for the proposed match between Gans and Britt. Another meeting is expected soon, and the clubs wanting the bout are doing their best to persuade the managers to get together.

To stop umpire baiting and rowdyism in the Central League, President Frank R. Carson has sent letters to all managers announcing that where fines are imposed upon players they can not get into the game again until the amount fixed by the umpire is in the hands of the head of the organization.

Pitcher Jimmy Wacker, of the Evansville Central League base ball team, who was recently operated on for appendicitis, has announced he will play no more ball this season owing to his bad condition, and he will probably return to his home at New Albany, Ind. Wacker is regarded as one of the star twirlers of the minor leagues.

Packie McFarland returned to Chicago this morning and will start training, with Harry Gilmore, jr., as his adviser, at the Gilmore quarters in Austin. He is said to be well down to weight and his trip to Denver is said to have done him good. His bout with Benny Yanger is set for Tuesday, August 20, at Fort Wayne, and Malachy Hogan has been chosen as referee.

Charles W. Somers, president of the Cleveland American League club, is disgusted with base ball and is anxious to quit the game. He has offered his stock in the Cleveland club for sale and will sever his connection with the American League as soon as he finds a purchaser. Somers, who is vice president of the American League, is one of President Ban Johnson's warmest friends and supporters, and has proved one of the mainstays of the league.

Jim Jeffries, portly, but seemingly agile enough, has taken up handball as part of his training and may be seen every day, exercising and perspiring freely, at the Los Angeles Athletic club. While his girth has not diminished as yet, the fashion in which his sparring partners ram hard punches into his stomach indicates that he is not as soft as he looks. "Jeff" has a perfect army of boxers to work with, ranging from featherweights to the ponderous John Brink, who floored the champion in a try-out last week with an unexpected hook. Some of those on his staff are Jack Kipper, Mel Nordlinger and Freddy Maier.

Harvey Crist is the brand of umpire that President Carson ought to sign for the Central League. The Marion Chronicle gives this as his Sunday record: "Harvey Crist, who umpired the game between the Marion Malleables and the Van Buren team at Van Buren, had a busy day. A member of the visiting team, angered at a decision, promised to "get" Crist after the game. He laid for the "umps" but failed to land right the first time and was immediately knocked down. Another Marion man then tried to whip Crist, but the tables were turned on him, too, and he was given a good thrashing."

Manager Napoleon Lajoie, of the Cleveland club, narrowly escaped serious injury Sunday evening at the hands of George Stovall, first-baseman of the team. Stovall tried to brain Lajoie with a heavy oaken chair, in the reading room of the Aldine hotel at Philadelphia, where the Cleveland team is stopping. Stovall has been indefinitely suspended and was sent home to Cleveland. Lajoie, although he has a lame foot, is playing first base for Cleveland. After supper Saturday Stovall was informed that an outsider had roasted him severely in the hotel dining room in the presence of Lajoie, and that the manager had not resented the critic's remarks. When Lajoie and Stovall met the latter informed his manager of what he had heard. An argument was started, which resulted in Lajoie inflicting a $50 fine on the player.

OPENS THE WAY FOR A NEW INDUSTRY IN FORT WAYNE

Revenue Laws Will Permit Alcohol Denaturing Plant Here.

Deputy Revenue Collector M. J. Barton today called attention to the fact that new revenue regulations which go into effect September 1 will open the way for a denaturing bonded warehouse in Fort Wayne where alcohol may be denatured for mechanical and other purposes if anybody here cares to undertake the experiment.

The provisions of the new law are such that with the approval of the revenue department denaturing bonded warehouses may be established at central points, to which alcohol may be shipped from the distiller's without the payment of the tax, and may be denatured at the central bonded warehouses. However, the establishing, operation and custody of the warehouses must be under the control and supervision of the revenue department.

Another provision of the new law makes it possible for farmers and others to establish small alcohol distilling and denaturing plants with a capacity of 100 spirit gallons per day or less, and may utilize for the purpose cisterns, tanks or other prescribed devices in lieu of the equipment insisted upon in the larger institutions.

BOOTH TARKINGTON RETURNS.

Indiana Writer Back From Europe With New Play and Novels.

New York, Aug. 6.—Booth Tarkington, the Indiana novelist and playwright, has arrived in this city after a stay in Europe of two years. He was accompanied by Mrs. Tarkington, his seventeen months old daughter, Louise Laurelton, and Harry L. Wilson, who has collaborated with Mr. Tarkington in "The Man From Home." Mr. Tarkington said that he had come home to see the play produced.

"I will only remain here a few weeks," said Mr. Tarkington, "until after the first night. 'The Man From Home' deals with the adventures of an Indiana lawyer who goes to Europe in reference to the marriage of his ward to a titled Englishman. I have also brought with me the manuscript of two unnamed novels, one of which will appear serially in a magazine."

After the presentation of his play Mr. Tarkington will return to Paris.

NOTED SURGEON DIES.

Elgin, Ill., Aug. 6.—Dr. Leonard S. Taylor, one of the most successful surgeons of the west, died yesterday, a victim of his profession. In May he performed an operation which saved his patient's life, but which has resulted in his losing his own life. In sewing up a wound after an operation for necrosis, Dr. Taylor pierced his thumb with the needle. He applied the usual remedy, but the poison entered the blood and his whole body was affected. Dr. Taylor was forty years old. He is survived by his widow and three children.

ONLY A CANARD.

Superior, Wis., Aug. 6.—Officers of the Canadian passenger boat Huronic, which arrived in port last night from Port Arthur, say the reported "invasion" of Isle Royale by Captain Young of Port Arthur, is nothing more than a canard. Pursuer James Rowan said he believed the foundation for the report was a lark of some young Canadian enthusiasts who went over to the island in a new launch flying the union jack.

BANK EMPLOYE A SUICIDE.

Philadelphia, Aug. 6.—Harry B. Weimer, of Lansdowne, Pa., a bank employe, was found dead in a pleasure park today, having committed suicide by swallowing poison. He had been missing from his home for a week and it is believed his mind had been affected by the failure of the bank by which he was employed. The bank has since re-opened.

SHORTER WORK DAY DENIED.

Scranton, Pa., Aug. 6.—At a conference of representatives of more than forty silk mills in Lackawanna and Luzerne counties here yesterday, it was unanimously agreed that it would be impossible to grant a shorter work day to silk workers. More than five thousand persons are now on strike for an eight hour day. Some of the mills are willing to compromise and grant their employes a nine hour day.

"We never repent of eating too little," was one of the ten rules of life of Thomas Jefferson, president of the United States, and the rule applies to every one without exception during this hot weather, because it is hard for food, even in small quantities, to be digested when the blood is at high temperature. At this season we should eat sparingly and properly. We should also help the stomach as much as possible by the use of a little Kodol for Indigestion and Dyspepsia, which will rest the stomach by digesting the food itself. Sold by all druggists.

MARCHING ON RAISULI.

THE CLICK OF BILLIARD BALLS WILL SOUND IN CHURCHES

Pennsylvania Preacher is in Favor of Sport and Says It Must Come.

Pittsburg, Aug. 6.—"I would just as soon hear the click of billiard balls in a church as the reading of the bible, providing it won a man to the cause of Christianity," declared the Rev. Dr. Maurice P. Fikes, pastor of the First Baptist church, of Franklin, Pa., last night. His church is the wealthiest in the oil region of this state and has one of the largest congregations in Venango county.

Dr. Fikes, who has just returned from a trip around the world, was telling of his visit to a church that has club features for men and women.

"I know the idea of a billiard room on church property," said Dr. Fikes, "will shock trustees and deacons, but they must come to it or their church will lose its influence."

THE MARKETS TODAY.

Although neither the wholesale or retail markets were extra large this morning, they were both of good size and the retail market was cleaned up early this morning at the quoted prices. Neither market was overstocked in anything. On the retail there were not enough vegetables to meet the demand and there were a few early home-grown potatoes. The potatoes of this class are and will be for some time puny things and it is not expected that they will be of any size for two weeks at the least.

The Elgin creamery butter market places the price of that article at 24c this week, the same as last.

The hide market is now going through its "summer dullness" and the prices are rather low, being about 2c per pound lower than the same time last year.

Hogs are firm and they are bringing about the right price for this time of the year.

This was another weak one on the grain market and very little wheat was brought to the city. The most of the sacks which the millers give out every year to be filled by the farmers with new wheat and brought to the city are still out. The real set price for new wheat has not been fixed as it depends entirely upon the movement of the wheat when it begins to come in by the loads. Wheat is moving three weeks later this year than last, as last year from 1,000 to 1,500 bushels per day were the average receipts of the millers. If weather such as today continues the farmers can complete their threshing in a very short time. Oats is now needing most of the attention of the men in the fields and this wet weather for the past week has greatly hindered them.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., Aug. 6.—Bearish sentiment predominated in the wheat market at the opening today because of favorable weather in the northwest. Lower prices on the Minneapolis curb also brought about an easier tone. September opened a shade higher to ½@¾c lower at 90⅞c to 91⅛c, sold up to 91½c and then declined to 90⅛@90⅜c. Minneapolis, Duluth and Chicago reported receipts of 750 cars.

The corn market was steady despite the fact that local receipts were considerably above the estimate. September opened a shade higher to ⅛@¼c lower at 55c to 55⅛c and sold at 55⅛c. Local receipts were 312 cars.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Aug. 6.—The opening prices of stocks reflected an uncertain speculative sentiment. The dealings were quite active and small losses predominated but there was a liberal sprinkling of gains. Union Pacific and Kansas City Southern preferred fell ⅝ and Sugar ¾. Pennsylvania ¾ and United States Rubber first preferred ⅞.

Except for a brief respite in the selling pressure around 10:30 the downward movement of prices was unimpeded during the first hour. The eastern trunk line stocks and Atchison were about the only stocks that showed any resistance to the decline, but the selling pressure lessened towards 11 o'clock. Among the noteworthy losses were Southern Railway preferred, Delaware & Hudson and Texas & Pacific Land Trust 3, Great Northern preferred 2¾, Sugar 2½, Union Pacific, Northern Pacific, Lead and International Pump 2, Southern Pacific, Cleveland, Columbus, Cincinnati & St. Louis and Peoples Gas 1½ and the balance of the list 1 to 1½.

After insignificant rallies the selling, which sent prices lower than before, was renewed. Minneapolis, St. Paul & Sault Ste Marie lost 4¾, Northern Pacific and Pressed Steel Car 3, Union Pacific 2¾, St. Paul, Great Northern Ore Certificates, Amalgamated Copper and New York Air Brake 2½, United States Rubber 2¼, Reading 2⅛, St. Louis Southwestern preferred 2 and American Smelting and General Electric 1¾. There were some rallies towards noon. Bonds were easy.

The improvement was small at noon. Pennsylvania was notably firm. Some large blocks of that stock were bought, raising it a fraction above yesterday's closing to 120¾. American Tobacco preferred declined 2 points.

There was another drop in the market after 1 o'clock in which Smelting was the greatest loser. Other stocks fell back to near their early low figures or below. A sharp rally followed in which some of the grain carriers and specialties recovered a point. Smelting's loss reached 3⅜, North American 2 and St. Louis & San Francisco second preferred 1¾.

The market closed generally weak and slightly feverish and near the lowest. There was an extended covering of shorts during the last hour, the resulting rally reaching the maximum of 2 in Union Pacific and American Smelting which had been the severest sufferers on the decline. The rally was proportioned generally to the previous decline. Prices did not hold firmly at the recovery and sold off again near the end of the day. Louisville & Nashville lost 2, General Electric 2½, St. Paul 3¼ and Consolidated Gas 3½.

Day's Happenings in the Industrial World

WRECK BLOCKS TRACKS.

Two empty cars in a Pennsylvania train were derailed and thrown crosswise of the tracks at Elida, Ohio, about 8 o'clock this morning and both tracks were blocked several hours. The accident was a trifling matter in itself, but Elida is about midway between Fort Wayne and Crestline, the only places where wreck outfits and crews are located and considerable time was consumed in getting a wrecking crew on the scene. Trains 39 and 23 were each delayed by the accident, the latter only twenty minutes. Nobody was injured in the accident.

ACCIDENT IN SHOP YARDS.

In placing some cars on a siding just within the enclosure of the Pennsylvania shops on the east side of Lafayette street at 12:30 o'clock last night, the string broke in two and two of the cars went against the bumpers at the end of the track with terrific force. The car which struck the bumpers, a flat loaded with car supplies, buckled and the rear portion telescoped the front end and the bumper posts, knocked the fence down and went out on the sidewalk on Holman street. Luckily nobody was in its way, else they would have fared badly.

BLACKSMITH FOREMEN MEET.

Some of the blacksmith foremen of the Pennsylvania shops in other cities are here today to meet Foreman G. A. Szink and to discuss matters connected with their duties as the heads of the department. The sizes of iron are to be standardized and the method of making different pieces is to be systematized and made uniform, and other things are to be talked about with a view of advancing the work of the department. Among those participating in the discussions are J. Schonburg, of Allegheny; John Deegan, of Wellsville, and the foreman of the shops at Columbus.

YELLOWSTONE SPECIAL TRAIN.

At 5:30 o'clock tomorrow morning a party of Pittsburg residents will pass through this city on a special train which will be the exact counterpart of the Pennsylvania limited and will run as a second section of that magnificent train. The party is en route to the Yellowstone Park and is attended by agents of the railway company, who will see that the people who compose the party get all the pleasure and information there is to be derived from a trip of this kind. No tickets are to be sold west of Pittsburg.

VISITING OLD FRIENDS.

Frank Trueschet was a caller at the Pennsylvania copper shop this morning and had a pleasant visit with some of the older employes there. Nineteen years ago Mr. Trueschet, who is a tinner, was employed in that shop. He resigned and went to Springfield, Mass., to work in shops, but soon afterwards engaged in the tinware trade on his own hook and has been very prosperous. He will spend a week here with relatives and friends.

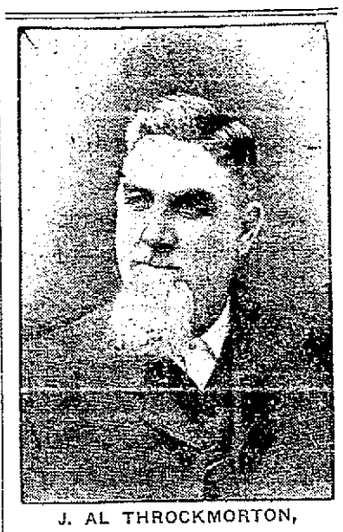
WORKED MANY YEARS IN SHOPS.

J. Al. Throckmorton, whose death occurred at 1:30 o'clock Monday afternoon, as published by The Sentinel, was employed in the Pennsylvania blacksmith shop nearly thirty-three years and was known as "Big Al" by his shopmates, a name given him because of his size, he weighing upwards of 300 pounds during his term of service there. He was exceedingly popular with the men, many of whom were indebted to him for kindly assistance and favors when in need. The records at the shop show that Mr. Throckmorton commenced work there in December, 1870, and passed to the retired list July 1, 1903, the week following his seventieth birthday anniversary. With him was Frederick Starke, also seventy years old, and the departure of the couple at the close of their last day at the forge was attended by a general handshaking and expressions of good wishes on the part of their comrades. The funeral of Mr. Throckmorton will be held from the residence of his son, Sidney Throckmorton, 2737 Hoagland avenue, at 2 o'clock tomorrow afternoon and it will be attended by many of the old shopmates of the deceased. The accompanying picture of Mr. Throckmorton was made from a photograph taken about five years ago, when he was actively at work in the shops.



J. AL THROCKMORTON,

The Veteran Pennsylvania Shopman Who Expired Monday Afternoon.

PROBABLY A STOLEN WHEEL.

Some one left a new bicycle leaning against the Bass blacksmith building yesterday morning and at the hour for quitting work last evening, no one claiming the wheel, it was taken home by Hammersmith William Palmer, where the owner can get it. It is believed the wheel has been stolen and possibly it came from some of the surrounding towns.

MIKE KELLEHER RESIGNS.

After a service of nine and a half years at the Pennsylvania roundhouse, Machinist Michael Kelleher resigned yesterday, in order to avoid night work. He has found employment at the Wabash shops and will commence work there tomorrow. Mr. Kelleher is a faithful and competent workman and has many friends in and out of shop circles.

ATHLETIC BOARD MEETS.

The business end of the Athletic association of the Pennsylvania employes held another meeting last night to further the interests of the coming field day events. Arrangements were made for selecting the prizes for the various contests and the result will be announced in a few days. Tomorrow the entry blanks will be ready for all who apply for them.

SHOP CLERKS HELD MEETING.

All of the department clerks of the Pennsylvania shops assembled in Shop Clerk J. H. Hobrock's office last night to study the new system of accounts that are to be made uniform in the shops. J. H. Hobrock presided at the meeting and there were twenty-seven clerks present.

Boilermaker F. E. Blody, who resigned a position in the Pennsylvania shops two months ago to go east, has returned and resumed his old place in the boiler shop.

Ed P. Hunt, of Chicago, is spending a few days with his Fort Wayne friends. Twelve years ago Mr. Hunt was a Pennsylvania train dispatcher and resided in this city.

Harry F. Lopshire and John E. Hunt in the east car shops, and William F. Struver and George Dager in the lumber yards, are new employes at the Pennsylvania shops. William Stration is a new man in the car shops.

R. J. Lyons and John Hanna, of the Pennsylvania, are about almost constantly now with the newly appointed engineers and aiding them by wholesome advice about manipulating the throttle and their duties otherwise in the cab.

Officials of the passenger department of the Pennsylvania railroad declare there is no foundation, as far as they know, for the report that the employes of the Pennsylvania were not granted special tickets or permitted to purchase tickets over other divisions than those on which they are employed, at reduced rates.

Capt. J. H. Meacham, of Petersburg, Va., is here today on his semi-annual visit to the dealers in pineapples and peanuts. The captain has been here twice a year for the past twenty-eight years and is quite well known to the grocers and commission men. He was a soldier in the confederate army and participated in some of the most important battles of the war of 1861-65.

Difficult Breathing

Short breath, fluttering, palpitation, sinking spells are symptoms of a weak heart, struggling to do its work. It must keep the blood in circulation to carry nourishment, to make flesh, bone and muscle, and remove the worn-out particles. When it cannot do this, it must have help. Dr. Miles' Heart Cure gives strength to the heart nerves and muscles, and increases the heart action.

"I am glad to say that I am so much improved in health. Dr. Miles' Heart Cure cured me when several doctors failed. I think no other medicine could do for me what Heart Cure has done. My case was bad; bad as it could be at times. I had difficulty in getting my breath, my heart beat so fast at times that I thought it impossible to live without relief: the pain was very severe in my left side, and my nerves was all unstrung. I had almost given up all hope of being cured, and I am sure I would not, if I had not taken the Heart Cure. I take great pleasure in recommending Dr. Miles' remedies to all who suffer with heart disease."

MRS. MARY C. HATFILER, Sullivan, Mo.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

The reorganization of the school board which has to occur within five days after the retiring of a former member, was held Monday night, with the results that E. W. WOULD SEIZE TRUST PROPERTY

Senator LaFollette Proposes Drastic Cure for Corporation Offenses.

Omaha, Neb., Aug. 7.—Senator La-Follette yesterday advocated confiscation of trust property as the penalty for such offenses as the Standard Oil company was convicted of. "The fine is none too big," he declared. "No fine could be too heavy for such a crime. It is too bad the oil magnates could not be imprisoned. They will undoubtedly soak the people because they are in a position to. The remedy lies in making the penalty much greater. A fine of one-half a company's property for the first offense and the other half for the second offense would make it hesitate before breaking the law."

BIG CROWD OF CHICAGO SPORTS COMING TO THE BATTLE

Yanger-McFarland Bout is Attracting Much Attention Over Country.

(By Jack Curley.)

Chicago, Ill., Aug. 7.

Benny Yanger, one of the greatest lightweights ever turned out of Chicago, and Packy McFarland, "the pride of the stock-yards," will be the card at the St. Joe Athletic club on the night of August 20. The match is the talk of the pugilistic fans in this neck of the woods and the outcome is being watched by every shrewd matchmaker in the country. It is also a well-known fact that several big matches hinge upon the result of the Yanger-McFarland match and that Jimmy Britt's next opponent will likely be turned out of the Fort Wayne battle. Kid Herman, who also has a hankering for another ring encounter, will also be at the ringside to let his claims be known, as will Charles Neary, Milwaukee's idol, and Fighting Dick Hyland of San Francisco.

Dr. J. G. Message, the leader of the pugilistic colony in the Windy City, yesterday notified Matchmaker W. H. Knapp that he would surely bring a crowd of five hundred to the ringside and Tommy Andrews, the author of the well-known sporting annuals, sporting editor of the Evening Wisconsin of Milwaukee, and for years manager of the Badger Athletic club of Milwaukee, yesterday added the names of nearly a hundred Milwaukee fans who will be at the ringside. All goes to prove the importance and greatness of the St. Joe club's matchmaking card.

Here is what Tommy Andrews says in his weekly letter in the Evening Wisconsin:

"No real championship depends on the outcome of the Yanger-McFarland battle, which is slated before the St. Joe club, of Fort Wayne, Ind., on the night of August 20. But the result will mean a small fortune for the winner, who will be in steady demand by all the middle western clubs. One thing is sure, it will positively decide who is the real leader among Chicago's lightweights. Benny Yanger has the call by all the swell sports but a defeat by McFarland will not boost his stock if indeed it will not mean oblivion for the once great Tipton Slasher. Neither boy will think he has been through a pink tea or two-step. It will be a fight for ring supremacy, for a winner end and above all—it will be a fight to see who is who in the Chicago pugilistic world and Yanger as well as McFarland place as much if not more value on that than they do on the monetary return."

FIGHT AT BASE BALL PARK.

Eighteen Hundred Seats and Ring Will be Under Shelter.

The Packy McFarland-Benny Yanger fight, August 20, under auspices of the St. Joe Athletic club will be held in the base ball park. Arrangements have been made to pitch the ring where it will be in plain view of the entire grand stand and canvas will be stretched from the roof of the grand stand out over the ring. Additional seats will be provided beneath this shelter. A large canvas wall will be stretched in the rear of the ring from one end of the grand stand to the other, making practically a fully enclosed and entirely sheltered arena. There will be no poor seats at the fight, but from every point a perfect view of the ring can be had.

CALIFORNIA MARE DOES SENSATIONAL WORK IN RACE

Goes Up in First Heat and Runs Away in Third But Wins Out.

Buffalo, N. Y., Aug. 7.—Sonoma Girl, the unbeaten California mare and winner of the M. & M. stakes, won a sensational race in the Empire State stakes, $10,000, at Kenilworth Park yesterday. After getting away nicely in the first heat, she broke at the quarter, and before she regained her feet the field was far away. The game mare went after the leaders, but just managed to get inside the distance flag.

Despite the bad race she was held favorite in the second heat, winning handily in 2:07¾. In the third heat Sonoma Girl broke at the quarter and crashed into the fence, throwing her owner and driver, J. D. Springer, who escaped injury. With the shattered sulky at her feet, the mare ran away nearly a mile. After investigating the accident the judges placed her sixth.

The accident did not hurt Sonoma Girl, and with a little urging she won the fourth and deciding heat.

Ed Geers, the veteran driver, handling John A., got in a mixup while scoring for the third heat. The old man was thrown from his sulky, but recovered, winning the third and fourth heats and the race. The 2:10 pace was captured by Aileen Wilson. Summaries:

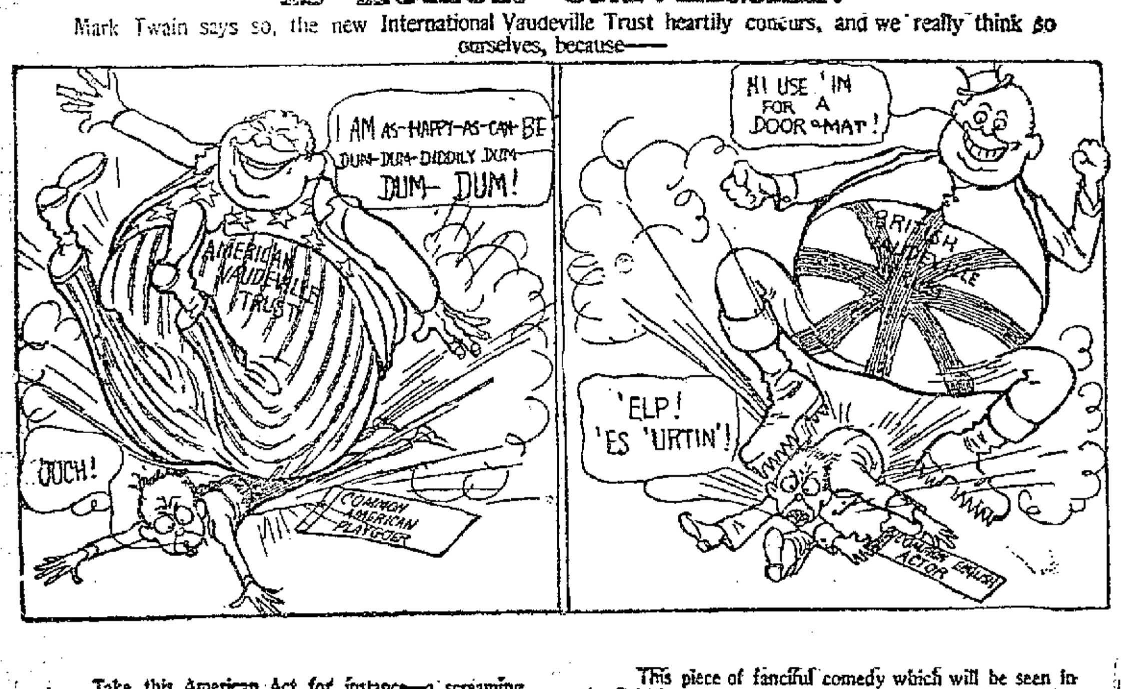
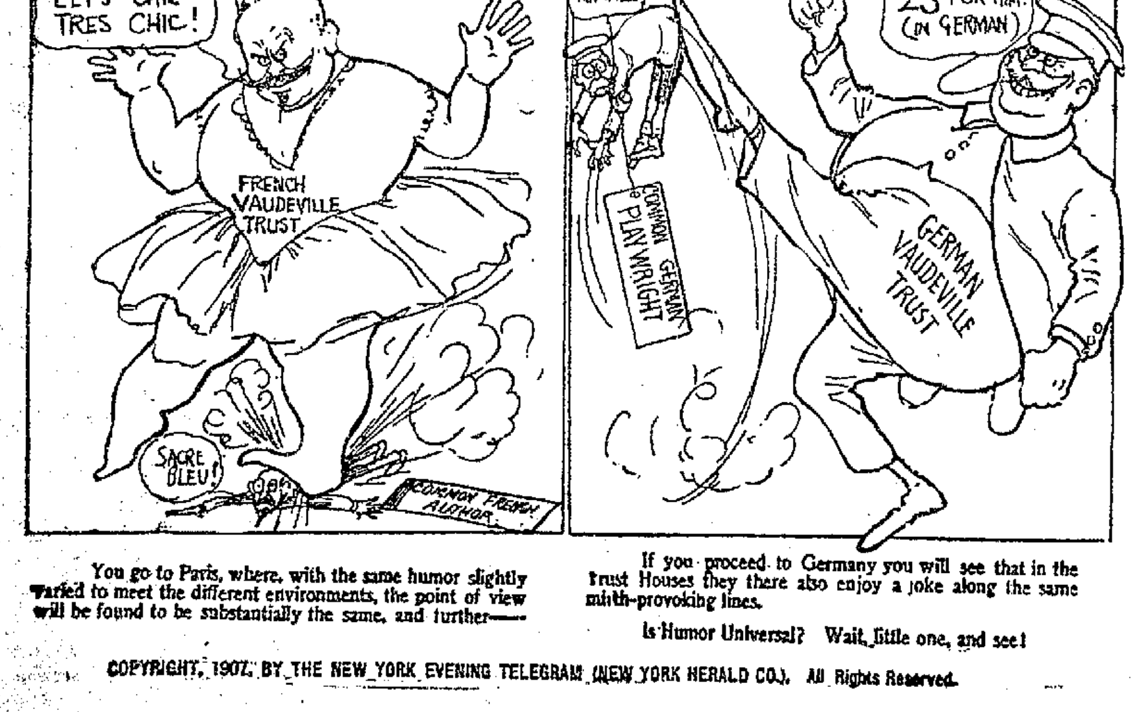
IS HUMOR UNIVERSAL?

Mark Twain says so, the new International Vaudeville Trust heartily concurs, and we really think so ourselves, because——



Take this American Act for instance—a screaming knockabout effort—and compare it with——

This piece of fanciful comedy which will be seen in the British houses. For real healthy, strenuous humor this will be difficult to beat, unless——



You go to Paris, where, with the same humor slightly varied to meet the different environments, the point of view will be found to be substantially the same, and further——

If you proceed to Germany you will see that in the trust Houses they there also enjoy a joke along the same mirth-provoking lines.

Is Humor Universal? Wait, little one, and see!

MANAGER CANCELS GAME WITH TOLEDO AND MAKES SHIFT

Coldwater Will Be Next Attraction With the Local Club.

Manager Mart Cleary, of the Fort Wayne Shamrocks, has cancelled the game scheduled against the Toledo Shamrocks and secured the Coldwater, Mich., team for the exhibition at League Park Sunday. He made a trip to Toledo yesterday and found that the club is not the strong aggregation that has been traveling under the name for several years and decided the organization was not fast enough for Fort Wayne.

When the Hillsdale club played here Sunday the members told Manager Cleary that the Shamrocks were not playing good ball, but before taking any action he went up to Toledo to make a personal investigation and found that the club had retained only three of its old members and is made up of youngsters.

Coldwater is made up entirely of salaried players and is highly recommended. The club has beaten all of the independent clubs of Michigan and has one game the best of the series played with Hillsdale. The aggregation is looked upon as a strong one and has been highly recommended.

SPORTING NOTES.

Manager S. F. Miller, of the Spy Runs, wants to meet the manager of the Gunthers at 337 Spy Run avenue this evening.

A meeting of the members of the Magnolia team will be held at the usual place this evening to arrange for the trip to South Whitley Sunday.

Gene Curtis, released a few days ago by Dayton, has signed with South Bend. Curtis was released because he failed to show up in both batting and in fielding.

All of the members of the Portland and Decatur teams will be arraigned in a magistrate's court at Decatur tomorrow morning for engaging in a game of ball Sunday.

Manager Mart Cleary has booked the Terre Haute Central League team for September 16. The club will go on a barnstorming trip after the close of the playing season.

Tom Asmussen, an Indianapolis semi-professional catcher, who has the reputation of being one of the best in the city, has been sold by Jack Keary, of the Marquettes, to the Boston National League club.

Kalamazoo correspondents have sent out that the Celery City has been promised a berth in the Central League next season. It was something like that which President Carson suggested on his last trip to this city.

Jack Smith, who refused a number of offers from minor league teams before the season opened, has just turned down a chance to finish the season with Marty Hogan at Youngstown. Bert Dennis recommended him to the management.

The White Sox have bought two new pitchers, one of whom is Frank Miller, of the Houghton, Mich., team of the Copper Country League, and the other is Pitcher Olmstead, of the Wichita club. They will report next season.

As a result of a scouting expedition made by Louis Heilbronner, the Cincinnati Reds will annex Pitcher Patrick Ragan and Outfielder Chickering Autrey, who have been playing with the Omaha club in the Western League this year.

Bluffton is making another shakeup in its base ball team. Spicer has been selected as captain. Tanglin, the shortstop, has been canned and Second Baseman Eichler has gone to Piqua, O. The payroll is to be cut down to $200 a week.

Springfield won fifteen straight games in the Central League and established the record.

Manager Jessup offered Will Horn a place on the pitching staff of the Richmond team. Horn turned down the offer thinking he was worth more money than Manager Jessup offered him. Manager Jessup states that he offered Horn $10 more than he was drawing when a member of the Richmond team in the spring, and that he cannot afford to go above the figures.

Leftfielder Lajeune, of the Springfield team, is credited with throwing a base ball 134 yards on the Evansville field. The distance was measured directly after the throw was made and showed 134 yards, according to the players and members of both teams, who handled the tape line. The present accredited long distance record throw is 133 2-3 yards, a record made by Hatfield, a player with the Rochester, N. Y., team fifteen or twenty years ago.

President Barney Dreyfuss, of Pittsburg, announces that he has decided to recall Pitcher Maddox from the Wheeling club of the Central League, and that the clever slabber may be with the Pirates in a very near future. Maddox is considered the best pitcher in the Central, and it is belived that with the experience he has obtained in that fast organization he will be able to blossom into a winner in the National.

According to a report from Pittsburg, the officials of the base ball club of that city have not purchased Catcher Pearce from the Newark, O. and P. League team. Pearce is an Indianapolis boy, and when reports were received to the effect that he had been bought by Pittsburg, his friends were glad of his good fortune. But the Pittsburg club officials have denied any knowledge of a deal for Pearce, and unless some other major league team bids for his services, he will be forced to content himself with the minors.

Before leaving Cleveland, O., for the south, John L. Sullivan, who has been showing at a large park for a week, called upon Frankie McHugh, the former lightweight pugilist, who is serving a sentence of five years in the penitentiary for highway robbery. Sullivan had an idea that he could obtain a pardon for McHugh, but he was handicapped in this, as Governor Harris was out of the city, and he only discovered this when the old gladiator called at the governor's office. Sullivan can not believe McHugh would commit such a crime.

BREAKS NECK AS DID HIS WIFE.

Coincidence in Sudden Deaths of Couple in Oklahoma.

Waukomis, Okla., Aug. 7.—The discovery of the body of Philip Sprouse yesterday morning beside his veranda and the subsequent finding by the coroner's jury that death resulted from a broken neck due to a fall forms a most peculiar coincidence. Less than a year ago Sprouse's wife broke her neck by stumbling over the feet of her husband as he was kneeling in prayer in their darkened sleeping room. It is supposed that Sprouse was killed by falling backward in his chair while asleep.

S.S.S. A CERTAIN SAFE TREATMENT

S. S. S. is the only safe and reliable cure for Contagious Blood Poison. It is purely vegetable, made entirely from healing, cleansing roots, herbs and barks, and in addition to curing this vile disorder, S. S. S. builds up every part of the system. Mercury and potash cannot cure the trouble; they can only mask it in the system for awhile, and when they are left off the disease returns, usually, in worse form than before, and the patient finds he has damaged his health with these strong minerals, which disease the delicate lining of the stomach, affect the bowels, produce chronic dyspepsia and often set up Mercurial Rheumatism. It will not do to trifle with a disease so powerful as Contagious Blood Poison, for every day it remains in the blood it is progressing toward a dangerous stage, and will in the end get beyond the control of any treatment. S. S. S. cures blood poison in the right way, it goes down into the circulation and removes every particle of the virus. No bad results are ever experienced from the use of S. S. S. It is gentle and pleasant in its action, and forty years of cures warrant the statement that S. S. S. is not only a safe but a certain treatment. Home treatment book on this disease and any medical advice desired sent free to all who write.

BEARS FALL ON THE STOCK MARKET IN RAID

Onslaught Beats Down the Prices and Stirs Up a Quiet Market.

New York, Aug. 7.—The bears fell on the stock market tooth and nail during the noon hour today and swept prices downward, violently uncovering extensive selling orders on the way down and buying hastily to take profits on the short side before the end of the hour. As a consequence the slump was followed by a quick rally. The onslaught of the bears wakened up what had been a quiet stock market during the forenoon. The absence of liquidation had encouraged the idea that the weakness of the market which had been shown for two days past was over. The uncovered bears were disposed, therefore, to cover their shorts and the market showed a considerable degree of strength. The crumbling away of one or two points in the list, notably Sugar and Interborough Metropolitan stock, gave warning of press to liquidate. The market resisted for a time, but the attack by the bears developed the vulnerable position and efforts at support were abandoned. Enormous blocks of Union Pacific and United States Steel were thrown over, evidencing the urgency of the liquidation. Rumors which had been in circulation of closing out of speculative accounts of capitalists of large influence affected sentiment and caused anxiety. Union Pacific, Amalgamated Copper and American Smelting slumped 4 points in the course of the onslaught, Reading 3¾, Northern Pacific 2⅝ and many other stocks from 1 to 2¼ points. Sugar's 4¼ point break was accompanied by rumors of the possibility of heavy fines to be imposed on the company for violation of the anti-rebate law similar to those levied on the Standard Oil company. The general agitation against corporations was the principal topic harped on by the sellers of stocks.

THE MARKETS TODAY.

Wholesale market was fair this morning and there was plenty of everything excepting potatoes. Butter, eggs and chickens all moved well and the prices held up firm with enough to supply the demand. Inquiry on potatoes was strong but there were very few to meet it. The prices shot up considerable, the poorer grade bringing from 60c to 90c per bushel while the extra good ones brought as high as $1. The grade of this article is improving nicely and it is said by commission men that the prices will remain high until Friday or Saturday when the farmers will come in with a large lot of them and the prices will then decline. At the end of the week a better quality is expected. In the large market centers, such as Chicago, potatoes are going down with a better quality in the receipts. Butter is remaining strong with firm prices.

A few home-grown tomatoes are coming in and are bringing good prices for this time of the year. The demand is good and the quality fine.

The hay market was a very dull one this morning and Weighmaster Ryan said that he did not think the farmers would bring much hay to market until the latter part of the week as this good weather has to be taken advantage of. The oats is over-ripe now and if let go much longer will not be of much account.

Wheat declined 2c on both old and new today, making new 84c and old 86c per bushel. The general market at the larger cities is the cause of this decline and very little wheat is moving today for the same reason as above, the farmers doing all the threshing they can in the dry weather.

The markets will al be dull for the remainder of the week until Saturday at least if this dry weather continues. Commission men are not expecting any one in during the week days but are making preparations to do a big business on Saturday.

JAPAN SENDS BEST MEN.

Leading Civil Engineers Come on Visit of Inspection.

San Francisco, Aug. 7.—In pursuance of its yearly custom to send representatives to visit foreign countries and the commercial and manufacturing centers of the world, the Japanese government has sent to America this year seven prominent railway engineers and managers to study our latest railway methods and improvements. The Nippon Maru on Monday brought three Japanese railroad engineers, two railroad managers, one harbor engineer from the financial department of the Japanese government and one steamship operating engineer.

After the railroad systems in this city have been inspected the party will go to Los Angeles, Denver and Chicago, Kansas City, Boston, New York, Philadelphia and later to Ogden and Omaha.

The visitors hope to return to Japan with many new ideas to be used in the construction of the new lines. The Japanese government, one of the engineers said, will shortly undertake the building of six thousand miles of additional steam railways, making a total of more than 11,000 miles in operation in Japan.

CONFERENCES CONTINUE.

Alabama and Railroads are Still Trying to Get Together.

Montgomery, Ala., Aug. 7.—Vice President E. L. Russell, of the Mobile and Ohio, representing President Finley, of the Southern railway, and Attorney Weatherly, of Birmingham, continued their conference with Governor Comer today regarding the controversy between the state of Alabama and the Southern.

That it was not the intention of the officers of the Southern railway to defy the Alabama law is conveyed in statements made by Vice President Russell. He declares that the removal of the case from the state to the federal court was in regular order of business and that it was not so removed in time to come under the provisions of the new law.

Railway officials discuss the finding of an indictment at Marion, Ala., yesterday with concern, fearing that it may cause complications. The Southern was indicted there for violating the act in doing business without a license.

Miss Minnie Meyer, of 1302 Union street, was awarded the $3 premium at the Broadway Cho. store, 1704 Broadway, cor. Wall street. C. A. Wans, proprietor.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., Aug. 7.—All of the grain markets opened active today and all of them were weak. There seemed to be a general desire on the part of holders to sell and the result was the general decline in wheat, corn and oats, as compared with the close of yesterday.

In wheat, aside from the fact that Liverpool failed to show any weakness following that of yesterday on the local exchange aided somewhat in holding prices steady. September wheat opened a shade to ⅛@¼c higher at 90¼c to 90½c, broke to 88⅝c and then rallied to 89¼c. Minneapolis, Duluth and Chicago reported receipts of 459 cars.

Extreme weakness prevailed in the wheat market all day. The close was weak and the September option closed 2¼c lower at 87⅞@88c which was the low mark of the day.

The corn market was active and weak. The chief influence was the general liquidation. September corn opened unchanged to ⅛c higher at 55⅜c to 55¼c and sold at 54½c. Local receipts were 140 cars.

The market ruled weak, the low point for September corn being 54⅜c. The close was easy with September off ¼@⅜c at 54⅜@54⅞c.

The oats market was weak. Selling was general throughout the pit. September oats opened unchanged to ⅛c higher at 43c to 43⅛c and sold at 42½c.

The provision market was quiet and somewhat easier. There were no early quotations on pork. Lard opened a shade lower at $9.12½. Ribs were 2½c lower at $8.70. September pork opened a shade lower at $16.40.

The Close.

Prices at the close were as follows:

Wheat—September, 87⅞@88c; December, 92⅝c.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Aug. 7.—The opening movement of stock prices was confused and irregular and transactions were not on a large scale. Some of the prominent stocks which were most acutely depressed yesterday rebounded sharply but there were losses at other points. Northern Pacific rose 1 point and Union Pacific, Kansas & Texas and Anaconda ¾, General Electric and United States Rubber first preferred fell large fractions.

Selling orders increased and the market sank to below yesterday's last prices before the decline was checked. On the rebound St. Paul, Union Pacific, Reading and the Hill stocks were strong and the top prices of the hour were registered. The demand began to subside after the rise got well under way and there was a subsequent decline. St. Paul, Kansas & Texas and Schloss-Sheffield rose 1, Union Pacific and Great Northern preferred 1¼. Colorado Southern and Third Avenue dropped 1¼, Delaware & Hudson 1½, Illinois Central 3½ and Sugar 1. One hundred shares of Lake Shore sold at 300 compared with the previous transaction at 335 on December 17.

The acute weakness of a few stocks had a restraining effect on the market but did not induce general declines of any importance. Sugar broke 3½, Interborough Metropolitan and the preferred 1¾ and 3 to record low prices. Third Avenue 3¼, General Electric 1¼ and Brooklyn Transit, Distillers Securities and Colorado Fuel 1. Canadian Pacific, Northwestern and United States Reduction preferred rose 1. Bonds were steady.

Violent liquidations developed in the market during the noon hour and prices fell precipitately all around. Union Pacific, Reading, Amalgamated Copper and Smelting were the chief sufferers, but all of the recent speculation favorites were thrown indiscriminately. United States Steel was dumped upon the market in enormous blocks, ranging up to 8,500 shares. Amalgamated Copper and American Smelting fell 4 points, Reading 3¾, Union Pacific 3, Great Northern preferred, Northern Pacific, Canadian Pacific, Bethlehem Steel preferred and Minneapolis, St. Paul & Sault Ste Marie 2½ to 2¾, and preferred 3½ and Southern Pacific, Atchison, Louisville & Nashville, Atlantic Coast Line and Big Four 2 to 2¼. Delaware, Lackawanna & Western sold at a decline of 9⅝. Third Avenue 5¼, Sugar 4¾ and Brooklyn Transit 3¼. There were some spasmodic rallies on hasty covering by shorts before the end of the hour, but the renewed break in Union Pacific of 4 points and in Northern Pacific to 3½ below last night, unsettled the market again.

Stocks seemed to be over for the time being, but the market made little progress towards recovery. Some of the chief sufferers, such as Reading, Union Pacific, the Hill stocks, Amalgamated Copper and Smelting ruled 1 to 1½ above their low figures. New York, Chicago & St. Louis second preferred made a belated decline of 4¾, Atlantic Coast Line 4½, Chicago & Alton and Railway Steel Spring preferred 4, American Woolen 2½ and United Railway Investment preferred 2 points.

After a temporary rally prices slumped again and previous losses were widely extended under a flood of liquidation with which the short sellers were in competition to secure the market. The origin of the heavy liquidation was a mystery but gossips pointed to many prominent sources. Union Pacific fell an extreme 6¾, American Smelting and Sugar 5½, Reading 5, Distillers Securities 4½, Northern Pacific and Amalgamated Copper 4⅝, Southern Pacific 4½, St. Paul 4, Great Northern preferred 3¾, Atchison 3½, Interborough Metropolitan preferred 3⅝ and Canadian Pacific 3. There was the usual scramble amongst the shorts towards the end of the session to take profits and some of the weakest stocks rallied in consequence 1 to 2½ from the extreme low level.

The market closed unsettled and irregular. A renewed slump in the final hour carried Union Pacific down an extreme 6¾, American Smelting and Sugar 5½, Reading 5, Amalgamated Copper and Northern Pacific 4⅝, Distillers Securities 4¾, Southern Pacific 4½, St. Paul 4, Great Northern preferred 3¾, Atchison 3½, Interborough Metropolitan preferred 3⅝ and Canadian Pacific, American Tobacco preferred and American Steel Foundry preferred 3, Federal Mining sold at a decline of 1¼. Rallies on covering by shorts reached 1 to 3 but were not fully held.

Liberal, Indeed.

"It don't pay to remember everything you read," grumbled Sandy Pikes as he wrapped his shins around the brake-wheel.

"Speaking from experience, pard?" asked his chum of the fast freight.

"You bet, old pal. I seen an item in de paper dat said people with big ears were always generous, so when I stopped at de wayside cottage and found de lady had large ears I told her I knew she was generous."

"Great hoboes! And did she give you anything?"

"Yep, she gave me a piece of her mind. Den she said her husband had big ears also."

"Dat's de limit. And did he give you anything?"

"Sure! He turned out to be a judge and gave me thirty days."—Chicago News.

Looking Fuller in the Face.

Statesmen in Washington over their black coffee and cigars are telling a little story about Chief Justice Fuller of the United States supreme court, says Judge. The chief justice, so the story runs, met an old time friend, and after a hearty handclasp Mr. Fuller remarked:

"You are looking exceedingly well. Aren't you filling out a little?"

"No, indeed," replied the friend. "You probably think so because I'm looking Fuller in the face."

Slight Mistake.

First Stranger—Excuse me, but you are a physician, I believe?

Second Stranger—You are mistaken, sir.

First Stranger—But I overheard you say you followed the medical profession.

Second Stranger—And so I do. I'm an undertaker.—Detroit Tribune.

Charming.

Mother-in-Law—Has the young man who saved my life yesterday called upon you yet?

Son-in-Law—Yes, indeed, he has already made his apologies.—Translated For Transatlantic Tales From Fliegende Blatter.

The Distant Relative.

"The Parkers have all gone into deep mourning for a very distant relative. Don't you think it's a sign they're rich?"

"No. It's a sign that the distant relative was rich."—New York Life.
